

We push a button and a light, is answer to our touch, we think of it most needlessly, and study it not much. We only know the light is there, responding to our urging, and lack of that a wire is hung, a current there is surging. But what about those days of yore when tallow candles were the style or later on when handsome lamps, gave out their light by oil. Who was it changed the world around and gave us power and power and light, who was it harnessed nature's power and lit the darkest night. None other but that jersey whiz, this Edison we laud and praise, the master craftsman, Thomas A. A little better and cool today.

National Officer Of Foreign War Veterans Speaks

Wolman Is Guest Speaker At
Meeting Of Kiwanis
Club Today

Stressing the need for the continuation of veterans' disability work and sounding an appeal to all ex-service men to perform well the duty which is theirs in helping less fortunate comrades, Paul C. Wolman, a Baltimore attorney and national senior vice commander of the Veterans of Foreign Wars, today described the objects of the V. F. W. to the local Kiwanis club.

The vice commander in the city as the guest of the local Harry L. McBride post for its open initiation at the Carnegie auditorium tonight, was accompanied by Orville Potter, commander of the New Castle post.

Mr. Wolman related how the organization originated and then how its work was divided into different branches. He declared that responsibility of organizing the government veterans' bureau is claimed by this organization, not in the hopes that some reward would be given for doing so but solely out of hope that by such a bureau unfortunate comrades and their dependents might find help.

"The work should be carried on," said the commander. "Those of us who are mentally sound and physically fit, suffering none whatsoever from the recent war, must aid them and we will."

Mr. Wolman spoke of the attempt to secure pensions for the veterans and explained the work of the bureau insofar as the matter of claims are concerned. He pointed out that over a million claims at present rest on the files of the veterans' bureau in Washington, because veterans seek aid and claim for injury sustained in war. He said 50 per cent of these million claims have been accepted while 50 per cent were turned down, chiefly because no disability is shown on the service record of the claimant.

"The Veterans of Foreign Wars is interested, too, in the widows and children of vets who are deceased," the commander added. "To care for them and to endeavor to raise families as they would have been had the father not been killed, is our aim. We have established a home, operated on the cottage plan, on a 500-acre farm in Michigan. There are over a hundred children and many widows are living."

The address of the veterans' official was enlightening to even ex-service men present and was enjoyed throughout.

Locate Another Man In Jail Here

Shortly after the local police authorities had located Julian Kaufman in the Lawrence county jail for the Los Angeles, Cal., authorities, a second message was received asking if there was not with Kaufman, a man named Edgar A. Nelson, who was wanted back there on the same charge for which Kaufman is wanted, that of robbery. Investigation located the second man in the jail also and the Los Angeles authorities were notified to that effect. Indications are that the Los Angeles authorities will send for both men, when they have completed their sentence in the local jail, which was imposed by Federal court.

BOY FOUND IS BELIEVED RUNAWAY

Lieutenant of Police Hillers and Officer Flinner last night found a boy named Joe Tirpak and claiming Joliet, Illinois, as his home in the third floor apartment of George Ritchie in the Brennenman block on South Croton avenue. The boy claimed when talking to the police that he was just "hiking" through when Ritchie took him home for the night. The police believe the boy to be a runaway from some institution and are holding him for the present.

tion and other downtown streets. They report the order was placed some time ago. They will be installed just as soon as they are furnished.

Several of our local weather prognosticators were a little disappointed this morning. They were predicting that there would be snow on the ground this morning after the storm of yesterday and last night.

With \$40,000 pledged toward the Community Chest fund of this year, there is every indication that the fund will go over the top this year. A new plan is being tried out which it is expected will be more effective than those of recent years.

Many people were surprised when they glanced at their thermometers this morning to find that the mercury did not go below the lower forties. A heavy wind prevailed during the night making the cold more penetrating. The lowest temperature, according to official reading was 44 degrees.

Yesterday afternoon's heavy rain brought local streams up considerably. The Shenango river rose eight-tenths of a foot while the rise of the Weshannock was more noticeable. Yesterday afternoon's rain was the heaviest in some time almost an inch and a half of rain falling in the space of about an hour.

Saw two little youngsters coasting down a hill on the New Castle-New Bedford road, yesterday, in a heavy downpour of rain. The tots were oblivious of automobiles and rain, in their enjoyment of the ride.

SOLO TRANS-ATLANTIC FLIER IS NOT SIGHTED OVER ATLANTIC AS YET

(Continued From Page One)

was making a bid for the glory for which so many others have striven and lost.

With their casualness, he informed airport officials that he was on his way to London. Within twenty-five hours, he wrote, he would be there, and asked that certain items be held for disposition by cable from the British capital.

Those twenty-five hours, during which Diteman hoped that the single engine of his low-winged Barling monoplane would plunge him through the mist-draped stormy skies of the Atlantic to his destination, expired as the deep-throated chimes of Big Ben tolled out the hour of five o'clock.

They might have been tolling his death-knell, for at the hour Diteman hoped to hear these same chimes as the hero of two nations, his fate was wrapped in the sinister silence which has shrouded so many previous ventures such as his.

Throughout last night and today, an unceasing watch was kept by coast guard stations and light-houses along the coasts of England and Ireland for some sign of Diteman's plane. Hundreds of necks were craned toward the sky, hundreds of ears kept open for the hum of a motor which would beat out a symphony of triumph for the daring flier.

But one by one the outposts reported to their headquarters throughout the day the same laconic report: "No news!"

There is an outside chance that Diteman may have been blown hundreds of miles off his course and may turn up some place along the jagged European coast. But the fact he had not been sighted since crossing the Newfoundland coast out to sea made this unlikely, it was said.

Unequipped with wireless, life-saving apparatus or extensive provisions, Diteman's fate if forced down in mid-Atlantic would not be difficult to imagine. If the engine became detached from the fuselage in the crash, the machine might float for a few hours, but reports of severe storms in mid-Atlantic virtually precluded the possibility of the "Golden Hind" drifting with its lone occupant until some ship happened across its course.

Barring a miracle, aeronautical authorities said, it now seems certain that Diteman, a stolid, well-to-do

cattle dealer from the West, had thrown his life away in a seemingly hopeless bid for fame.

Had he won his daring gamble, Diteman would undoubtedly have been a famous man. Not only would he have joined the ranks of the few whose attempts to fly the Atlantic have been capped with success, but he would have earned an eternal niche in the hall of fame as the second man in history to do it all alone.

Hope Wanes

St. John's N. F., Oct. 23.—Considerable anxiety was felt here today over the fate of Urban P. Diteman, attempting a solo flight to London.

No word has been received of his progress, and ships reported that a violent storm raged throughout the night in mid-Atlantic.

There is still some hope that Diteman may reach his destination in safety, but this hope is fast waning.

COALITION GROUP QUITE CONFIDENT IN TARIFF FIGHT

protection for the benefit of the dairy industry.

Another duty to be attacked is that on whiting, on which the tariff was boosted 700 per cent, according to Sen. LaFollette. He contends the rate would raise building costs a million dollars a year, whiting being an ingredient of linseed oil and being also used in rubber goods, oil-cloth and linoleum.

Rates on coal tar dyes also were expected to be attacked by the coalition.

Leaders Warned

While spokesmen for the coalition were charging that the American chemical industry has passed the infant stage its defenders were warning the senate that refusal of tariff protection may transfer chemical business to Germany.

In the first tests on the chemical schedule, on relatively unimportant items, the coalition scored easy victories. After a roll call vote of 45 to 33, the regular Republicans accepted several amendments restating rates to the 1913 level without roll call.

With this roll call showing some changes in the lineup administration leaders appeared confident they would gain many votes on the more important items in the chemical schedule. Among the progressives joining the administration in the first test was Senator Johnson (R) of California.

Gloom Thickens

The action of coalition speakers in insisting upon debating innumerable items in the tariff bill cast gloom over those who have been hoping for early passage of the measure.

Unless there is a drastic speeding up process it is predicted the senate cannot possibly finish the measure in the extra session.

The attitude of the coalition was shown when half a dozen senators excoriated Senator Reed (R) of Pennsylvania after he complained the senate was wasting money in taking time to discuss an item on which the annual tariff collected would be but a hundred dollars.

STAR LORE

THE MIRAGE EXPLAINED

By Arthur Dev. Carpenter

In the prairie country of western United States and Canada, the mirage is a frequent thing during the hot summer season. A mirage is produced in the following way: The surface of the hot earth radiates its heat to the immediate atmosphere, where in turn expands and becomes less dense than the cooler air above it. As light rays are reflected from objects in this vicinity, they take a concave path upward, passing from a less dense to a more dense atmosphere. As a result, such objects often appear lifted above the horizon, distorted, and sometimes inverted, when seen from a distance. (More Tomorrow)

Nocera Is Awarded Sale Commission

Jury Holds That He Had Furnished Customer For Mr. And Mrs. Zuk

In the case of Henry Nocera against Demetri Zuk and wife, which was tried before Judge Chambers, the jury found a verdict in favor of the plaintiff for \$141.46, the full amount of the claim with interest.

The case was one in which Nocera, who is a real estate agent, made a contract with Demetri to sell a property located on Electric street for the price of \$3250. He was to receive \$100 commission if he made the sale.

He brought a number of people to look at the premises, among them being Maria Kulich. This was in October, 1922. Mrs. Kulich appeared to be well pleased with the property but did not close up the deal.

About three days later Nocera says that Mr. and Mrs. Zuk came to him and told him that they had decided not to sell their property and asked for the return of their contract, which was handed over by Nocera.

Shortly afterward Nocera learned that Mr. and Mrs. Zuk had sold their property to Maria Kulich for \$3250. Nocera demanded the commission, as he had secured the customer. The defendants refused to pay it on the grounds that the property had been taken out of his hands.

The suit, which ended with a verdict for Nocera for the full amount of the claim with interest, was then started.

OCTOBER MEETING OF COUNTY FEDERATION

The October meeting of the Lawrence County Federation of Women's Clubs took place in the Y. W. C. A. Tuesday afternoon, with Mrs. Charles Greer presiding.

All clubs were urged to buy tuberculosis Christmas seals, and plan programs for Armistice Day.

Plans were made for a reciprocity meeting, Tuesday November 10, in the Y. W. C. A. for clubs of Mercer, Beaver and Lawrence counties. There will be a board meeting at 11 a. m. luncheon at noon, with a program in the afternoon. The state officers will be invited as well as the Ellwood City Club.

An old fashioned program is to be carried out at the January meeting, and all club women are asked to collect, old readers, old hats, and early American glass for this occasion. A spelling bee will be an added feature.

The welfare committee will canvas Lawrence county to note the number of employed children, in the near future.

Mrs. Charles Greer expressed her deep appreciation for the Grace M. Greer scholarship fund, presented her last week, by the Lawrence County Federation, at the state meeting in Erie.

In order that the history of each of the Federated clubs may be preserved, they will be published in the Federation paper at an early date.

Announcement was made that the Garden Club will present their annual play, some time in December, the date to be announced later.

Plan Masquerade.

Westfield Grange members will have a masquerade party at the Grange hall Monday evening October 28. A fine program has been arranged for the evening.

Prizes will be awarded for the most ridiculous costume the best character portrayal, bride and groom, fat man and lady, most comic and the best family group.

A SELFISH TARIFF VIEW

DURING the presidential campaign a year ago Governor Smith and John J. Raskob vowed and attempted to prove that the Democrats were as good protectionists as the Republicans. Democrats who want a high price for their products or a high wage for their labor are good protectionists, but in the halls of congress there are still to be found Democrats who think it politely expedient to attack the Republican brand of protection.

When Senator Caraway instituted the senatorial inquiry into the practices of lobbyists, everyone believed it a sincere move to destroy the evils of lobbying. Developments since then have been such as to make it plain that his intent was to discredit the protective tariff.

Enough has been heard from the Caraway camp to make it evident that its members are playing a selfish game. In the same breath they opposed protection for Republican states and favor it for Democratic sections.

Whatever academic theorists among the Democrats may say to the contrary, the United States is committed to the policy of protection for home industries. Even the Democratic party, at a time when it was committed to free trade, was in power eight years without depriving the nation's industries of the protection of a tariff wall.

TWO SENATORS FOR CONFERENCE

Two senators will be members of the delegation from the United States to attend the coming five power naval conference in London. This is an exceedingly wise move on the part of President Hoover. They are to be David A. Reed of Pennsylvania and Joseph T. Robinson of Arkansas. Reed is a member of the committee on military affairs, Robinson of the committee on naval affairs. Both participate in the deliberations of the committee on foreign relations.

It will be observed that the president has carefully avoided partisanship. The senator from this state is a Republican, the senator from Arkansas a sturdy Democrat—so sturdy in fact that he is the leader of his party in the senate and was its candidate for vice president in the presidential election of last year. Ambassador Dawes will be a delegate, and probably Hugh Gibson, ambassador to Belgium. There will also be a staff of naval experts. Secretary of State Stimson will head them all. Rear Admiral Pratt and Rear Admiral Jones, the experts, will not sit in the conference. They attend in an advisory capacity solely.

Whatever treaties may come out of the conversations in London or later in Geneva must be passed upon by the senate. Inclusion of two of its prominent members in the delegation—both of them of the powerful foreign relations committee—is intended to keep that body in close touch with events as they transpire. It will have first-hand information.

Yes, a wise move—a very wise move. The senate through its own representatives thus shares in history making. In short, it is in on the ground floor.

DIVORCE BY CONSENT

It is doubtful that any very careful consideration has marked the proposal, concerning which we have recently been told in the news, to make divorce procurable by mutual consent. If this isn't trial marriage carried to its inescapable conclusion, including complete abandonment of the principle that marriage is more than the gratification of a passing whim, more than a temporary economic compact, more than a merely physical convenience, then what is it? Can the proposer of this short-sighted and hedonistic expedient have reflected on how sweeping a reversal it would effect of all our current conceptions of family life?

High improbability that the plan will be received with favor outside a limited circle of self-appointed reformers is founded on two propositions. First, though alarmists point to a very considerable increase in legal separations granted within recent years, it remains true that there are seven times as many marriages as divorces, notwithstanding that a divorce proceeding in a good many states is little more than a formality. In other words, the margin of safety is still as six to one. In the next place, a social organization which depends for its solidity largely on the preservation of the family is unlikely to accept the theory that the state can afford to yield its authority in a matter of this kind.

There is an element of absurdity in the notion that marriage is the affair of no one but the two individuals contracting it, which has obtained currency only because there are people who do not comprehend the reciprocal quality of the relation of citizen and state. Meadville Tribune.

The Way OF THE World

By GROVE PATTERSON

THE TALLEST PRESIDENT

Asked who was the tallest president of the United States most of us would say Abraham Lincoln. As frequently, we would be wrong. Washington was six feet three inches. He was taller than Lincoln. Washington was the tallest of all men who have occupied the White House. A book could be written, full of trivial and important information that most people have about men and facts in history, science, art, literature. It might be more interesting reading than the real facts. Unfortunately tradition grows just as fast from a false beginning as from a true one.

UNDER AGE, MENTALLY

Parents, having a child, or more than one child whose intelligence is not up to his years, naturally feel embarrassment and grief. Often the child suffers from the lack of proper treatment, training and schooling because the parents wish to conceal the fact that the child is not quite normal. This is not fair. Better face the

facts in the case and make such an adjustment for the boy or girl as will bring the best chance for a successful life and the most happiness.

AHEAD OF HER TIMES

It is not a new experience for Jane Addams, famous social service worker, to be ahead of her times. Now she says that while prohibition may finally succeed, she thinks success ought to be brought about by more peaceful means. She would disarm enforcement officers. Doubtless Miss Addams would also like to disarm bootleggers and hi-jackers. The trouble is that it is much easier to take the guns away from enforcement officers than it is from liquor runners. In principle Miss Addams is right, as she usually is. In practice the gun is what puts the force in enforcement. Enforcement officials who do not know what a gun is for and who shoot before they know what or whom they are shooting at are little better than morons and ought to be discharged.

MONUMENTS

Wisconsin people may erect a monument to honor the author of "Silver Threads Among the Gold." If they do not remember his name he was even E. Rexford. Whether you remember his name or not, you remember his song. People are incurably sentimental. Let us hope they remain so. The world has many monuments that record less worthy deeds than the writing of "Silver Threads Among the Gold."

The nation reads with affectionate sympathy of Mr. Edison's visit to Dearborn where Henry Ford has rebuilt as it was in old days the simple Edison laboratory to which men owe so much.

Mr. Edison was deeply moved when he saw his old tools. The chair in which he set in his early youth, his primitive paraphernalia reassembled as used 50 years ago when he developed the idea that now lights the world.

Every old man can share Mr. Edison's emotions. The human heart is the same with or without genius to lend it a great name.

A million among those that see this column today carry with them memories of youth—a shell bark hickory tree standing alone in the field, a grove of chestnut trees with yellowish green butters open showing the brown nuts within, a pond that held "shiners" and catfish, a swimming hole happy memories of a tree life and boundless hope.

The strike of the drivers for big oil companies in New York collapses, all drivers returning to work. Some complain that they were led to strike by bad advice against their will and judgment.

It must be clear to any wise leader of union labor that this is not a time when great corporations can be driven from their determination to maintain the open shop.

No drivers union can fight successfully against a thousand million dollars.

General Disapproval Greeted Filipino Freedom In Tariff

Sentiment Is Divided As To Wisdom Of Now Separating Islands But Latest Attempt Is Called Preposterous

While sentiment is divided as to the wisdom of now giving independence to the Philippine Islands, there is general disapproval of the attempt to deal with such a question in the pending tariff legislation.

"For the sake of beet sugar and beans and peanuts cast the Philippines outside our tariff walls!" exclaims the DETROIT NEWS. "That 45 Senators voted against the proposal should not have the emphasis. The monstrous fact is that 36 Senators voted for it." The HARTFORD COURANT calls the bringing of the matter into the tariff debate "a shabby performance" and charges: "The greed inspiring the movement is manifest, but it is equally deplorable on other grounds. It reflects a cynicism in our dealings with out dependencies which must inevitably be prejudicial to our prestige abroad. The Filipinos can scarcely be blamed if they fail to be impressed by professions of altruism on the part of the United States hereafter."

"The move for Philippine independence in this instance," declares the ST. LOUIS GLOBE-DEMOCRAT, "was not based upon sympathy for the Filipinos, but was an effort to force a tariff upon Philippine sugar. * * * The hypocrisy of all this will be made apparent in the exposition of the fact that independence would mean economic ruin for the Philippines." The MUSKOGEE CHRONICLE argues: "If we are to retain the islands despite their clamor to be permitted to go on their own, to treat them as part of the United States in government but as aliens in commerce would be to give them a wide-open opportunity to draw a 'deadly parallel' with the mother country's imposition of the tax that has precipitated our Revolutionary War."

"Too bad," thinks the HOUSTON CHRONICLE, "that some sections of our country had to feel the Philippines as an economic menace before we could give proper consideration to the principles involved in our control of them, but we should welcome a study of the problem of giving them and action upon it, no matter how brought about. We are under solemn pledge, of course, to give the islands independence. That becomes not so easy now, unless we are to do them a grave economic injustice. Industry there has been built up inside our tariff walls."

The tariff wall of the United States has been created and is maintained under free-trade conditions, while trade with other countries has been barred or restricted by the tariff schedules. * * * It appears that the economic life of the islands would be entirely prostrated if full independence were suddenly granted them."

A legal question is raised by the WHEELING INTELLIGENCER, with the statement: "Congress is without the Constitutional right of surrendering sovereignty over the territory of the United States. The Supreme Court of the United States has decided that the Philippine Islands are territory to the United States. Congress has no more right to cede American territory to an unformed foreign nation to which it is proposed to yield sovereignty over the Philippine Islands, than it has to sell or give up Alaska or the District of Columbia to Great Britain or France."

THE ROCK ISLAND ARGUS, however, differs strongly with this position, saying: "It may be that some Filipinos do not want independence. Nevertheless, the Philippines should be granted economic independence, political independence to follow at a date to be fixed by Congress—say five or six years hence. Some think that our relationship to the Philippines should be the same as that between Great Britain and Canada. The islands could elect a practical sovereignty. At a stipulated time we would withdraw from the islands altogether. In the meantime the people could prepare for their future political independence."

"The whole question should be considered from every standpoint and it should not be made the tail of any other legislation," contends the ALBANY EVENING NEWS, while the SAVANNAH PRESS comments: "Americans in Manila, we are advised, regard the proponents of independence as unfriendly to the Filipino. They regard those proponents as primarily business men, pledged to deliver a mortal blow to Philippine industries in defense of capitalists of their own States. But business interests out there agree that independence is far from being around the corner, despite the gestures in the United States Senate."

"Defeated by only a few votes," according to the PUEBLO STAR-JOURNAL, "it is claimed that some Senators voted in opposition because they felt that the matter should be dealt with in a separate resolution. * * * Although the Filipinos were promised that they would be given their independence when fit for self-government, there are many Americans who

object to giving up the islands. Sentiment along this line undoubtedly will be heard vigorously when Congress begins a serious discussion of the resolution providing for independence."

"The Senate has done well not to be stampeded into ill-considered action that would lead them away from the main purpose of America's presence in the Philippines," in the judgment of the MANCHESTER UNION, which offers this explanation: "It is true that America has set herself definitely to the task of bringing Philippine up to the level of self-determination. A commendable progress has been made in this direction, but the task is not finished. To abandon the task now would be a confession of failure to all the world."

"It must be evident," suggests the SALT LAKE DESERET NEWS, "that the introduction of extraneous or slightly related features into the discussion of the tariff bill is grievously delaying progress. * * * Those who are feeling impatient feel that the Filipinos can better afford to wait a few weeks or months for their independence, than the United States can afford to prolong its present tariff uncertainty."

The World AND THE Mud Puddles

ANYTHING NOT MADE IN U. S.?

The United States is now the leading silk-making country of the world. In the last few years the value of the silk produced in our mills has increased about 200 per cent.

At one time we annually contributed about \$30,000,000 to the silk weavers of Lyons, France. Now we make almost all the silk we consume, besides exporting millions of dollars' worth annually.

The French claim that the falling off in their trade is due to our protective tariff, which has built up the silk industry of Paterson and other American cities.

In the United States the silk is made in large mills and the cost of manufacture is so reduced by modern labor saving machinery, and by proper organization, that American commercial travelers can now sell American silks in Europe.

Some of the French manufacturers have recently removed their plants to the United States and others have removed their mills on the American plan.

At San Marcos, California, a silk manufacturing concern grows its own mulberry trees and cultivates its own silk worms.

YESTERDAY'S GOLFER

I do not care to play the chap Whose ball has been in every trap. The fellow who has said: "I'm off my game!" I view with dread. When sick men whine, I don't forget. But all my life I'd like to play The "seventy-eight man yesterday."

I guard myself against the chap Who grows about his handicap. Of golfers who've gone stale, I swear I've found it wisdom to beware. Unsympathetic I remain. I grant no strokes to men in pain. But I rejoice to hear one say: "I broke an eighty yesterday."

Give him to me, ye golfing gods. And I will not be a larger odds! Give him to me, while still he thinks He's master of all golfing kinks. Give him to me, while still he feels He knows the secrets golf conceals! The easiest men to beat are they Who reached the seventies yesterday.

Oh, seldom do I hope to win From men doped full of aspirin. With wailing golfers I confess I've never had the least success. But all my life I'd like to play The "seventy-eight man yesterday." For golfing to excel that score. He'll hook and slice as never before. (Copyright, 1929, Edgar A. Guest)

Some auto drivers have their own way so much at home, no wonder they come 't grief on grade crossin's.

Why German commerce is expanding, it may yet be necessary to make the world safe for democracy all over again.

Correct this sentence: "Both of my boys turned out to be worthless," said he. "But I did everything a parent could do to save them."

Bible Thought For Today

THE SOURCE OF REAL JOY—I will greatly rejoice in the Lord, my soul shall be joyful in my God; for he hath clothed me with the garments of salvation, he hath covered me with the robe of righteousness.—Isaiah 61:10.

PRAYER—"Yes, I will rejoice, Rejoice in the Lord, I'll joy in the God of my Salvation."

Local U. C. T. To Aid Nation-Wide Business Survey

National Representative Of Department of Work Here For Meeting Thursday Eve

BUSINESS MEN OF CITY WILL ATTEND

Members of New Castle Council No. 408, United Commercial Travelers, will assist their national organization in making a survey of business conditions throughout the United States and Canada, plans for which will be made at their meeting in the Union Veterans hall in the city building on Thursday evening at 8 o'clock.

The U. C. T. is the only traveling man's organization which holds a membership in the U. S. Chamber of Commerce, with whose cooperation this survey is to be conducted.

Information will be secured by all classes of traveling men affiliated with the U. C. T., and those who are not members of the organization. The questionnaire which they are filling out covers 48 separate parts. As soon as the survey has been completed and the information gained, analyzed, they will have an accurate picture of cost distribution which will be of immense value to independent wholesalers, manufacturers, jobbers and retailers throughout the country.

It is the first effort that has ever been put forth to analyze distribution costs and to suggest remedies for present existing evils which are being found.

The meeting tomorrow evening will be thrown open to the public at 9

o'clock, when business men, manufacturers, jobbers and merchandisers will be asked to attend and take part in the discussion. Suggestions will be received from anyone who can tell others how they can benefit their business.

According to R. H. Davis, past grand councillor of the state of New York, who is the official representative of the Department of Work of the National U. C. T. the traveling man of the future will be an expert in his line, able to diagnose business conditions and suggest new merchandising methods to his clients. The national organization is working towards this end.

Mr. Davis will speak at tomorrow night's meeting. Other addresses will be made by Ray F. Hall of the New Castle Credit Exchange, and James W. Cole, secretary of the Chamber of Commerce.

Representatives from surrounding U. C. T. organizations will be present from Butler, the Beaver valley, Sharon and Youngstown for the meeting Thursday evening.

GIRL SCOUTS

Iroquois Troop.

Friday evening, October 25, members of the Iroquois Troop of Girl Scouts will meet in the auditorium of the Arthur McGill school for a Halloween party. Miss Lillian Dietler is general chairman. No Ordinary Building Materials Could Carry This Guarantee

WE would be too intelligent to offer such a guarantee on ordinary Building Materials. If our Certified Materials were not exactly as represented—a guarantee like this would be suicidal. The public knows that no nationally known Surety Company could afford to put their Bond behind any but Materials of known quality. The very fact that our Materials come up to the specifications of the Surety Company's bonding experts speaks for itself. Before you build or buy you will want to look into the guarantee behind CERTIFIED MATERIAL. Write or call for a specimen Surety Bond Free. You will not be obligated in any way.

Former Resident Gets Fine Position

Hayden Williams Is Now Credit Inspector For Big Finance Corporation

Hayden Williams son of Mr. and Mrs. Edwin Williams of Hillcrest avenue, has just been promoted to the position of credit inspector with the Universal Sales Finance company, which corporation handles all the financing for the Ford company.

Mr. Williams has been connected with the Duquesne Finance company of Pittsburgh for about four years, when that concern was absorbed by the Universal Sales Finance company. Three months ago he was promoted to the position of assistant branch manager which office he filled until he was called to the head office in Detroit. He is at present working the territory in and about Kansas City.

He will travel in the capacity of Inspector of Credit between that city and New York city. After graduating from high school Mr. Williams was for some time connected with Foster Brothers of this city going to Pittsburgh later with the Duquesne Finance company.

SLIM FIGURE NOW UNFASHIONABLE

Women and Girls Can Now Be Healthy as Well as Stylish

That excessive and unnatural slenderness that ruins the health of thousands of women and young girls is no longer fashionable. Paris couturiers are developing clothes for the rounded figure. Musical comedy producers are searching for healthy, normal figures for the stage. All the world is getting health-wise where the human figure is concerned.

This means that women and girls will be encouraged to eat enough varied foods at regular meals to supply the requirements of health. It means that tuberculosis, anemia and other dangerous results of undernourishment may be more easily averted. And to the eyes of discerning men and beauty experts, it means that women will be more natural and more beautiful.

Eat cereals, milk, fruits, vegetables and meats daily. Do not gorge on vegetable, but eat variety. Remember that flavor is the one important factor in causing people to eat varieties of foods, and that sugar is nature's supreme condiment for developing the flavors of nearly every healthful food.

The necessity of a dash of sugar for making cereals, fruits and milk desserts delicious is well known. Women cooking experts recently discovered that a dash of sugar in vegetables while they are cooking revolutionizes their freshness and natural vegetable flavors. Most foods are more delicious when finishing with sugar. The Sugar Institute.

Poppy Day Drive Here November 9

Poppies To Be Sold Under Auspices Of American Legion Post

Following a practice of some years standing, the Perry S. Gaston Post No. 343, American Legion will stage a Poppy Day drive again this year, on either the Saturday preceding or the Saturday following Armistice Day. Because of the fact that November 9th, is the day when New Castle High school's football plays South High at Youngstown, it is possible that Poppy Day will be set over until November 16.

Attorney Clarence A. Patterson is the general chairman of the day and will name his committees within a few days. The setup of the day will probably follow that of other years in the main, with some new ideas of the chairman's incorporated.

In past years it has been the custom to have 100 senior and junior girls of the High school on the streets with Flanders poppies, with one of the Senior High school faculty in charge as chaperone. The girls have had the Legion home for their headquarters, with their meals served there, and members of the Legion acting as a transportation committee to haul them to various points in the city.

Poppy Day was inaugurated here in 1921 and has always been a successful affair. This year will probably be no exception.

Beaver Valley Presbytery Meets

Delegates Named To General Assembly Of United Presbyterian Church

The Beaver Valley Presbytery met Tuesday at Bethel United Presbyterian church with most of the ministers in this district in attendance.

Delegates for the general assembly of the United Presbyterian churches to be held in St. Louis next year, were elected and included Rev. C. J. Williamson and Rev. S. B. Copeland of the Highland and Third U. P. Churches, Rev. McFarland of New Wilmington, and Rev. Calvin of New Galilee.

Rev. Garman Johnson received a call to Center U. P. church and Rev. S. E. Irvine was appointed to install him. Rev. B. M. Wallace of Steffin Hill has received a call to Traer, Iowa and was released. Rev. S. B. Copeland was moderator of the meeting.

At noon the ladies of Bethel church served a chicken dinner.

Grandmother Is Under Bond For Poison Attempt

(International News Service) BRIDGEPORT, O., Oct. 23.—Mrs. Belle Kennedy, grandmother, is under \$3000 bond today charged with using the mails to send poison candy to her daughter-in-law, Mrs. Mary Adams of Bellaire. She has been indicted in common pleas court for attempted manslaughter for the same incident.

Booster Club Heads Will Meet Thursday

Members of the Executive committee of the New Castle Booster Club, will hold an important meeting in the City Council Chambers, Thursday evening at 8 o'clock.

World's Non-Stop Automobile Record Shattered by Plymouth

More than one year's average driving in 26 days! 11,419 miles of travel in 632 hours—with never a moment's rest for motor or chassis! That is the record-breaking feat performed by a Chrysler-built standard stock Plymouth 4-door Sedan over all sorts of roads in and about Tyler, Texas!

The finish was voluntary with the motor functioning

perfectly. Official examination showed scarcely a trace of carbon, no need to grind valves, no appreciable wear, no single part that required either repair or replacement.

Here is proof of unduplicated engineering soundness. Here is a low-priced car that is built to last. Come in and find out for yourself what Plymouth performance means!

Built Like a Fine Piano

The Bush & Lane Shield identifies the one radio "built like a fine piano." Far from being an empty phrase—that designation is the explanation for the classic beauty, painstaking craftsmanship, and perfection of tone found in the Bush & Lane—the product of a group of men who have been piano craftsmen for almost 40 years.

At the Radio Shows where all the manufacturers bring their radios to be displayed to the trade, few models commanded more enthusiasm from the experts than this Bush & Lane Model 32. Because the hundreds of men who attend these expositions are keen judges of public preference, it was no surprise to them, or to Bush & Lane, that Model 32 has quickly estab-

lished a record for itself in public acceptance. Italian Renaissance in design, this model gains its stately beauty from rich maple burl overlays, tasteful treatment of carvings, and the contrasts of figured walnut. This model, like all 12 in the Bush & Lane line, has 8 tubes, is all-electric, and operates on a full neodyne circuit. \$179.50 less tubes.

Organizations Report Work Of Needlework Guild During Year

In reply to the question which is sometimes asked as to whether or not the Needlework Guild is necessary since we have the Community Chest, the following letters are quoted by Guild officials:

From the Associated Charities:
Miss Marion Wallace, Sec.
New Castle Branch of the Needlework Guild of America.

Dear Friend: Now that the time of year has arrived for increased activity of the welfare organizations of our city, we are wondering if the people of New Castle really know and appreciate the wonderful work you are doing.

Thousands of children as well as adults, through the different agencies here, have enjoyed comfort and pleasure through the beautiful garments, etc., which you distribute annually.

As for the Associated Charities, we would have to have from \$1,200 to \$1,500 more money each year from the Community Chest to do the work we are now doing if it were not for your society.

We want your society to know that the members of the board of directors of the Associated Charities appreciate very keenly the help you are giving us to carry on our work.

With our best wishes and congratulations, we remain,

Very truly yours,
ASSOCIATED CHARITIES.
P. A. Hoyer, President.

From the Almira Home for Aged Women:

My Dear Miss Wallace:

The board of managers of the Almira Home wish to express their deep appreciation of the help afforded them in the past by the Needlework Guild. The garments (both personal and household) presented the home following the ingathering in years past have been a great help to the management in making ends meet. We hope the ingathering this year will be as generous as before, and the home will be the fortunate recipient of such useful garments as we have had before.

Sincerely,
(MRS. C. E.) ANNA W. TRAINOR,
Corresponding Secy.
Almira Home for Aged Women.

From the Margaret Henry Home:

Miss Marion Wallace, Sec.

Dear Miss Wallace: It is with great pleasure I put down in writing the good the Needlework Guild of America has done for our home since its existence in our city.

In the fall of the year you meet for the purpose of administering to the needy, one of the corporal works of mercy, "clothe the naked."

If you could but see the children when the bundles of the Needlework Guild are brought in the home, you and all the donors to the Guild would feel doubly repaid for the gifts of warm clothing sent to the children for the winter months.

The children help count the new

garments and they'll count them over and over, and believe me, they can tell how many of each kind there are. They want to know who's this for and who's going to get that. And, oh my, the questions they ask. It is the personal interest you have in your work that helps so much. When you inquire as to what garments are needed, we know just what you are going to give and what to rely upon.

Tongue cannot tell nor pen write the good you have done for the children in our home and the expenses you have saved us.

Very gratefully yours,
MARGARET L. HENRY CHILDREN'S HOME
Margaret L. Henry.

From the New Castle Hospital:

New Castle Branch of the Needlework Guild of America. Dear Miss Wallace: Enclosed a few words of appreciation. We cannot tell you how highly we prize the good work the Needlework Guild is doing, both for our hospital and our community.

By the contributions received from the Guild we are able to make many a poor person very comfortable and happy.

We trust God will bless and reward abundantly all the members.

Very gratefully yours,
NEW CASTLE HOSPITAL,
Sisters of St. Francis.

From the Health Department:

Miss Marion Wallace, Sec.

Dear Miss Wallace: Regarding supplies for the city cupboard from the Needlework Guild, would say that the city nurse has given out to the needy all articles received last year, and would appreciate another supply for the coming year, as we anticipate a great demand for clothing this year.

Very truly yours,
W. L. STEEN, M. D.
Health Officer.

From the City Rescue Mission:

To the Friends of the Needlework Guild Society:

We are glad to say that the City Rescue Mission is included in the round table. We wish to thank the society for the help received from you for the Rescue Mission last year. Any help you would be able to give this year would surely be appreciated. Yours in the Master's work,
B. J. WATKINS.

From the Rhodes Mission, Harlansburg Road:

Miss Marion Wallace, Sec.

New Castle Branch of the Needlework Guild of America.

Dear Madam: I think the Needlework Guild fills a place that no other organization in New Castle reaches. The Guild, working through other agencies, reaches a great many needy families. The Rhodes Mission always appreciates the articles given by the Guild.

We always have a number of needy families, and being located out of the city, do not receive any garments from any other organization except the Guild.

Sincerely yours,
VELMA E. PATTON, Sec.
Rhodes Mission.

From the Salvation Army:

Miss M. H. Wallace, Sec.

New Castle Branch of the Needlework Guild of America.

Dear Friend: The Salvation Army of Lawrence county, with headquarters located at 26 East street, New Castle, Pa., wishes to express to the Needlework Guild of America in New Castle our great appreciation for your continued interest in the underprivileged class in our midst.

If you could, as we often do, see the happy faces of mothers and children

State May Have

Surplus In Fund

Receipts For Two Years May Be

Greater Than Had Been

Predicted

(From News Bureau)

(State Capital)

HARRISBURG, Oct. 23.—Although it was expected when the 1929 Legislature authorized expenditure of \$340,000,000 during the present fiscal biennium that the Commonwealth's money bags would be scraped clean, it now seems likely that a sizable egg will be left in 1931 for expenditure by Governor Fisher's successor.

State income is running slightly in excess of estimates. Budget Secretary Arthur P. Townsend said today. While the accumulated surplus in excess of appropriations is not large thus far, it will be an important item if the increase continues during the nineteen months remaining in the biennium. Various tax on estates accounts for most of the increase.

On basis of the budget Governor Fisher submitted to the Legislature, the State during the two years starting June 1 planned to spend \$340,000,000 and have a balance of \$6682 at end of that time. Increased revenues thus far indicate a balance considerably larger. It seems unlikely now, however, that the experience of the past two years will be duplicated. The 1927 budget predicted a 1929 balance of \$316,000, but the actual balance last spring was approximately \$25,000,000—also due partly to inheritance tax. Expenditure of that balance for new construction and graduated reduction and ultimate repeal of the anthracite tonnage tax will probably prevent duplicating a balance of that size in two years hence.

Expected income in the future probably can be estimated more closely than in the past due to concentrating all collections through the new Revenue Department. Previously the collecting department, the Auditor General and the State Treasury each might have different ideas regarding which source to credit with various items of income, but a single bookkeeping system will now avoid such errors. Experience under the new department, State officials expect, will establish long period trends in receipts from various sources and make it more easy to estimate future receipts from any source than was possible under the old regime.

In Churches

In a statement issued today, the City Rescue Mission through its superintendent, Rev. B. J. Watkins, acknowledges its appreciation of the support given it on Mission day, observed in churches last Sunday.

Rev. Watkins statement read: "The City Rescue Mission wishes to thank all those who have contributed to the support and maintenance of our work of helping the poor and needy of New Castle. Through your assistance we have also been able to offer considerable aid to those who have passed through the city in the search of employment."

TELLS AMAZING HEALTH STORY TO THE PUBLIC

Man, 81, States Ten Herbs Ended Ills Endured For 15 Years.

Thousands of men and women of all ages, including many from New Castle and vicinity, have publicly recommended the famous new medicine, Ten Herbs, for stomach, liver, kidney and bowel disorders, rheumatism, neuritis, nervousness and a general weak.

MR. N. C. STEVENSON

run-down condition. With such convincing proof of the amazing power of this modern liquid medicine, there is little wonder that it is such a phenomenal success throughout this section. Find out for yourself about Ten Herbs by calling at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where this popular preparation with the ten wonderful natural ingredients is being introduced.

"Ten Herbs did wonders for me—ended stomach trouble that I had endured for more than 15 years—and the way it benefited my whole system was very gratifying," was the recent statement of Mr. N. C. Stevenson, 104 Second Avenue, Butler, Pa. "During all those years I could not eat many things I liked, because of indigestion, gas, bloating and heartburn that would follow," continued Mr. Stevenson, who is 81 years of age and a civil war veteran. "I had a poor appetite, and nothing I ate agreed with me. My liver was disordered, and I was troubled with dizzy spells. I was very nervous and could not get a good night's sleep. There were pains across my back, and when I sat down awhile I could hardly get on my feet again. My head was stopped up in the morning, and I would cough. Sometimes there were puffs around my eyes, and I was troubled with headaches a great deal."

"I cannot say enough in praise of Ten Herbs because of the way it helped me. It gave me a good appetite, and rid me of indigestion, gas, bloating and heartburn. My nerves were put in fine condition, and I began to sleep soundly. Dizzy spells left, and I was no longer troubled with pains across my back. My head cleared, and constipation was entirely relieved. My endorsement of Ten Herbs in the future will be just as strong and sincere as it has been in the past."

Ten Herbs is being introduced at Eckerd's of New Castle, Inc., 30 East Washington Street, and is sold at all drug and medicine stores throughout this entire section.

CONSTITUTION HALL IS CONSECRATED TODAY

National D. A. R. Building In
Washington, D. C.,
Is Consecrated

Constitution Hall Is Achieve-
ment Of 170,000 Or-
ganized Women

WASHINGTON, Oct. 23.—Constitution Hall, the monumental building housing the auditorium and library of the National Society of the Daughters of the American Revolution, was consecrated this afternoon, following adjournment of the meeting of the National Board of Management. It was a colorful and ceremonious program, commencing with a procession played upon the pipe-organ by Mrs. Thomas Kite, of Cincinnati, O., one of the 13 honorary vice-presidents general.

Mrs. Lowell Fletcher Hobart, president general, was escorted by Miss Dorothy Jenkins, of Mt. Airy, Pa., bearing the flag, and Mrs. Jean Labat, of Washington, with the D. A. R. emblem.

Bishop of Washington Officials
With the national officers grouped on the flag-banked stage and in the presence of the state regents, members of the Constitution Hall building committee and the advisory committee, the consecration services were held. The invocation was pronounced by Mrs. William Rock Painter, of Missouri, National Chaplain, followed by the salute to the flag and "America."

The Right Reverend James E. Freeman, D. D., Bishop of Washington, pronounced the solemn words consecrating the building to the uses and

purposes of the society in upholding the principles of the constitution, and blessing it in memory and honor of the founders of the republic.

Miss Silverstein of North Carolina represented Mrs. William N. Reynolds, of Winston-Salem, donor of the organ, and presided while the "Star Spangled Banner" was rendered, and this was followed by a hymn of consecration directed by Mrs. James Shera Montgomery. Dr. Joseph R. Sizoo, D. D., pronounced the benediction.

All Chapters Aid

Constitution Hall, is the achievement of 170,000 organized American women. Promotion, financing and construction were participated in by every one of the 2,400 local chapters, located in every state and in Alaska, Hawaii, the Philippines, Cuba, China, France and England, and through the efforts of members more than \$1,000,000 has been raised when ground was broken in 1928 by Mrs. Alfred J. Brosseau, then president general, and Mrs. Calvin Coolidge.

In addition to funds subscribed toward construction, the members have by contributions provided for equipment valued at more than \$600,000.

With Memorial Continental Hall, the Administration Building and Constitution Hall, the D. A. R. national headquarters now occupy a solid block, facing the parkway south of the White House and with the Pan-American Union and American Red Cross as immediate neighbors. It is in the center of park development in the national capital, only a short distance from the Washington Monument, Lincoln Memorial and White House.

CENTERPIECES

Gaudy fruit, with a few green leaves for contrast, makes a beautiful centerpiece for the table. Why wait until Thanksgiving or Christmas to use it? The family will like the colorful decoration and the fruit can be eaten for dessert.

THE HONORABLE MRS. SILKWOOM

"They seem to like that little chap the best," remarked Peter to Sir Butterly, "and he looks the plainest of them all."

"You never can tell by appearances, my friend. That is the Right Honorable Mrs. Bombyx."

"I never even heard of her," said the boy, who had expected to learn that the boy was some one of importance, from the way the council members acted.

"Perhaps you know her by the caterpillar name," suggested Cousin Moth.

"When she is at that stage of her life she is called a silkworm."

"What, really?" exclaimed Peter so loudly that General Hawk-moth looked at the boy with much disapproval and gravely remarked:

"A little less noise, if you please; the meeting is about to be called to order."

The boy lowered his voice to say that he had read all about Silkworm and that his mother had several dresses that had been spun by the clever creature.

"Do you notice what a short trunk Silkworm has?" queried Sir Butterly. "It doesn't need a long one, for while it is a Moth it never eats. All it lives for is to lay hundreds and hundreds of eggs which will turn into silkworms, of course, and after it has performed its duty, it dies, poor thing. And yet in its short life it does more real good than all the rest of us put together. That's why we all think such a great deal of it. It does its duty, regardless of the cost. Quite different from Tiny (we call Tiny that for short) isn't it?"

"I should say so," began the boy, but he was interrupted as he was about to continue the conversation by the ringing of a very sweet bell.

For a moment Peter didn't know what it was, but Cousin Moth nudged him to be silent and pointed with his feelers toward General Hawk-moth.

"A LITTLE LESS NOISE IF YOU PLEASE"

Then Peter saw that the chairman of the council was frantically waving the bluebell as a sign that he wished silence. As soon as he had gotten Peter's attention by this time all the others were earnestly watching the leader—he said in his deep voice:

"The meeting is called to order. All the members of the council are present or accounted for. Let us proceed with the business of the day!"

Next: "The Caterpillar Parade."

Army Is Seeking Young Men Typists

There are several fine openings for young men with experience as typists also those with a high school education for good places in the United States Army. Let us hear from you.

Three young men are wanted as typist in the War College at Washington, D. C. There is no reason why these young men might not be from this city. Young men with a high school education are also wanted at the present time for the flying school at Langley Field, Va.

There are vacancies in schools in the third corps area which is made up of Pennsylvania, Maryland and Virginia.

There are also openings in nearly every branch of the army service in the Hawaiian Islands, Panama Canal Zone and the Philippines. There are special vacancies for men with special qualifications in China.

Young men interested in any of these opportunities should get in touch with Corporal J. W. Thompson at the city building without further delay.

It looks like the parking problem which has confronted high school officials for the past year has finally come to a close. The high school parking grounds on the north and south side of the school became parking space for students vehicles on Tuesday morning.

Feed Bees Syrup In Cold Months

Bees are fed in the fall for two reasons, according to County Agent McCulloch. Feeding supplies them with sufficient food to carry them through the cold months of winter and spring, and it also gives the bees a purely heat-producing food free from waste materials.

Only about 15 pounds of food is needed for producing heat during the winter, H. R. McCulloch says. A much larger amount is consumed in brood-rearing during February, March, April, and sometimes May, when no honey can be gathered. Each colony should have at least 45 pounds of honey for winter food and for brood-rearing. All colonies having less should be fed until they have that

amount, or the equivalent of seven full frames of honey.

Honey gathered in the fall in this state generally is from varieties of asters and goldenrod. It often contains considerable waste materials, and the aster honey tends to crystallize solidly so that the bees cannot use all of it. Among the waste materials are pollen grains, dextrin, and ash. Fruit juices occasionally are stored with fall honey, making it an undesirable winter food likely to cause dysentery.

Every colony, regardless of the amount of honey stored, should have 10 to 12 pounds of sugar syrup to take care of emergencies. This syrup is made with two and one-half parts of white granulated sugar and one part of water by volume. Mr. McCulloch explains. The mixture should be heated only enough to dissolve the sugar and not to boil the syrup. The

syrup should be fed when cool and preferably in the evening to prevent robbing.

Bears Jump Into Market Rally

New Raid Is Made On Motor Car Accessory And Specialty Stocks

By W. S. COUSINS
International News Service Financial Editor
NEW YORK, Oct. 23.—Bears in the stock market jumped squarely in the path of the rally in industrial stocks today, with a new raid on the motor-car accessory and specialty stocks. Bethlehem Steel, on which the rights to buy new shares recently expired, was also cracked fairly on the head by the big Bears, who sold the stock down 9 points below yesterday's peak price, and 7 points below the price placed by the management on the new 300,000 shares sold to stockholders.

Diligent search by the Bears for "Weak Spots" was rewarded, and the professionals flooded the market with selling orders whenever these weaknesses were uncovered. Webster Electric Auto fell through to a new low at 17 1/2 down 3 1/2. Yellow Truck and Briggs Manufacturing lost a point each and Bork Warner was down a point to 49.

Murphy Corporation again led the downward move in automobile accessory stocks, losing 9 1/2 points at 35 1/2. Electric Auto fell through to a new low at 17 1/2 down 3 1/2. Yellow Truck and Briggs Manufacturing lost a point each and Bork Warner was down a point to 49.

This aggressive raid on the specialties brought to an abrupt finish the rally in high-grade railroad and industrial shares which had been in progress from the opening.

EDISON RETURNS TO DAYS OF YOUTH AT JUBILEE CELEBRATION

Turning back the pages of time to the days when he was a newsboy on a train running between Port Huron, Mich., and Detroit, Thomas Edison, inventor of the incandescent lamp, is snapped with President Hoover, Henry Ford and other notables before boarding a replica of the old train at Dearborn, Mich., where he re-enacted his newsboy role with the president and his party as passengers. The celebration was in honor of the fiftieth anniversary of the invention of the incandescent lamp. In the photo Henry Ford, Mrs. Edison, Thomas Edison and the President, and Mrs. Hoover can be discerned.

Collect Prizes For Celebration Of Hallowe'en Here

Work of collecting the prizes for the Hallowe'en celebration has started and Chairman Lewis and his associates are busy getting them in and classifying them.

General Chairman Ivor V. Davis today called attention to the fact that this work of collection of prizes was one that required much time upon the part of the committee and that this work was being done free.

The idea of the Hallowe'en celebration is two fold, first to provide amusement for the people of the city on Hallowe'en night and second to attract boys and girls into the downtown district and thus obviate the mischief that idle hands find.

For the reasons set out it is hoped that the merchants will co-operate cheerfully in the prizes and that the work of the committee will be expedited.

Witness' Mind Goes "Blank" As He Takes Stand

Senate Lobby Investigation Blocked As Witness Fails To Remember

BYANSON'S NAME MENTIONED AGAIN

By W. M. K. HUTCHINSON
International News Service Staff Correspondent
WASHINGTON, Oct. 23.—A strange "blank" in the mind of Joseph E. Wulch, foreign trade secretary of the Connecticut Manufacturers Association, blocked the Senate lobby investigating committee today in its search for "leaks" in the Senate finance committee's secret tariff sessions.

Wulch could not remember where he obtained the information he incorporated in a memorandum sent Charles L. Eyanon, the \$100,000 a year lobbyist, who attended two secret sessions of the tariff-making body. In the memorandum, Wulch wrote he had told two Connecticut manufacturers Senator Hiram Bingham (R) of Connecticut, had won a "decisive victory" in fixing a 10 per cent duty on shot gun barrels.

He protested his mind was a "blank" on this memorandum. Finally he admitted he could only have obtained the information from Eyanon, who was serving as Bingham's secretary.

Wulch said one of his duties was to answer tariff inquiries "if I was able to do so." Then Senator Thomas J. Walsh (D) of Montana, produced the memorandum which stated that "Senator Bingham met with very strong opposition to the 10 per cent duty on rough board (CQ) shoe gun

barrels," adding that "Senator Bingham considered it a decisive victory" to hold the duty at 10 per cent.

"There did you get that information?" asked Walsh.

"Every since this was printed in the papers, I've been trying to recall but I am unable to do so," said Wulch. "I was under instructions not to communicate with Mr. Eyanon while he was in Washington, otherwise I would imagine I got it from him."

Wulch said his memory was "perfect ordinarily, but its faulty as to this."

He said he might have guessed at the contents of the memorandum "because we want to impress our members."

Senator Caraway (D) of Arkansas, pointed out the memorandum was marked "information for Senator Bingham."

"You wanted Senator Bingham to know you had recommended him to these manufacturers so he would know how loyal your organization was to him and how you were boosting his stock?" asked Caraway.

"In a way."

Placed In Trap.

"Then how you do dare to take a chance on quoting what was in Senator Bingham's mind and what he had done if you weren't certain of the facts?"

"It didn't have to go to Senator Bingham—that would be up to Mr. Eyanon."

"Could you have gotten this information from anybody else than Mr. Eyanon?"

"I can't think of anybody else."

Eyanon, the tariff expert, "loaned" by the Connecticut manufacturers association to Bingham, was recalled and questioned about the Typsum and Clay schedules. His memory was faulty too. He could not remember what he had done to help Senator Bingham on these two subjects, and he was excused.

Claim Law Not Complied With

It is then set forth that on October 7th the city, by its mayor and city clerk applied to court for an order directing the county commissioners to have ballots printed. As a result it is claimed the county commissioners, at large expense, propose to have ballots printed, but it does not appear that the City of New Castle has caused notice to be given to the taxpayers and voters as required by act of 1925 P. L. 177, nor is any form of public notice, as required by law, attached to the application or petition for such order. Nor does it appear thereby or by the proposed form of ballot that the assent of the taxpayers and voters is to be obtained in reference to an increase of indebtedness of said city to excess of two per centum of the last preceding assessed valuation of the taxable property of the city.

The petition further sets forth:—

Statutes relating to increase of indebtedness of municipalities in excess of two per centum of the assessed value of all property therein contemplate an intelligent assent or dissent by the taxpayers thereof at an election held for that purpose. To secure such action such statutes require notice, during at least thirty days, by weekly advertisements for such period, which advertisement shall contain a statement of the amount of the last assessed valuation of property of such municipality, or the amount of the existing debt, or the amount and percentage of the proposed increase, and for the purpose for which the indebtedness is to be increased. It is respectfully submitted that an intelligent assent cannot be given at an election where, instead of one, five propositions or questions for assent are submitted.

The petition continues:—

By the form of the ballot proposed and which it is the intention and purpose of the defendants to print and provide for the election No. 5-29, the

assent contemplate by the statute in force cannot be given, as no elector will be able to foretell, on such election day, to what extent the indebtedness of the city has been increased by the action of other electors of the city.

Under the constitution and laws of this commonwealth, the assent of the tax payers or voters of such city cannot legally increase the indebtedness of such city county election.

Wherefore the plaintiff prays for an order directing hearing on this bill and thereupon that an injunction may issue enjoining and restraining the defendants from the use of public money to print extra ballots for the voters of the city of New Castle on the question of increasing the indebtedness of such city at the November election.

The petitioners are represented by Attorneys A. Martin Graham S. L. McCracken and C. H. Akens.

Judges Hildebrand and Chambers have not yet fixed time for argument, but it will be within the next few days as the contract for ballots is about to be let.

The city and county will be represented by Robert M. White, city solicitor and county by John P. Lockhart, county solicitor.

Contention Made.

According to the contention of attorneys who are filing the action:—

"It appears that the constitution of Pennsylvania permits the officers of a municipality to incur indebtedness to be paid by taxation up to amount of two per centum of the assessed valuation of the property in such municipality, but such indebtedness cannot be increased above two per centum of the assessed value of the property, except by the consent of the tax payers thereof. The assessed valuation of property in the City of New Castle is \$57,136,640. The present indebtedness of the city is \$977,625. This amount is within a few dollars of two per centum on the assessed valuation of the property.

"When the amount of indebtedness is to be increased above the two per centum an election is to be held and the law requires advertisements thereof for the period of thirty days before such election, such advertisement to contain a statement of the amount of the last assessed valuation, a statement of the amount of the existing debt, a statement of the amount and percentage of the proposed increase, and a statement showing the purposes for which the indebtedness is to be increased. The bill contends that this requirement has not been complied with and can not be complied with under the form of the ordinance adopted by the council expressing their desire to increase such indebtedness and submitting the question to the voters.

"It appears that the ordinance of the City sets out that the proposed increase is to be for five separate purposes, \$100,000 for playgrounds, etc., \$50,000 for sanitary sewer purposes, \$200,000 for storm sewer purposes, \$350,000 for improvement of highways, etc., and \$150,000 for improvement of the Neshannock channel. This makes \$1,250,000.

"The bill contends that the only vote proper to take is whether the tax payers of New Castle will consent to an increase of the indebtedness of the city in the sum of \$1,250,000 and that such consent can not be legally obtained in reference to the specific items. The reason set out in the bill for this contention is that the law required the 'percentage' of the proposed increase to be advertised for the information of voters, and such advertisement can not be made as to any one of such items for the reason that no one can foretell how many of the items will be approved by the voters.

"In other words, it is contended by the bill that a voter might be in favor of increasing the indebtedness of the city to amount of \$100,000 for the acquisition and improvement of playgrounds as the amount of indebtedness now stands, but he might not be in favor of such increase if it were in addition to the \$450,000 for sanitary sewer purposes. On this basis it is argued that it is impossible for any voter to exercise an intelligent judgment on any one of the five propositions because of the uncertainty as to whether the other four will be approved by a majority of the voters. In support of this contention it is urged that the law requires that the advertisement should set out not only the 'amount' of the proposed increase, but also the 'percentage' of the proposed increase. It is contended that this provision in the law is for the very purpose of preventing an election in the form proposed by the ordinance of the City and the published advertisements."

New Trial Is Asked In Mike Roth Case

Application for a new trial has been made in court in the case of Michael Roth against Joseph Prejzner in which a jury returned a verdict for \$1 in favor of the plaintiff. Roth sued for damages as the result of an automobile accident on Atlantic avenue in which he was injured about the head and face. It is claimed that the verdict is too small in view of the evidence.

Contest Payment Of Insurance Policy

Jury Must Decide Question Raised On Policy Of Emanuel Weinschenk

Contest over an insurance policy in which Mrs. Etta M. Weinschenk is plaintiff and the National Life Insurance company of New York is defend-

ant, is being heard before Judge Hildebrand in court here. The policy, which was for \$5,000, with double indemnity in case of death by accident, was taken out upon the life of Emanuel Weinschenk of Shenango township. Soon after the policy was taken out Mr. Weinschenk was killed when a tractor which he was operating overturned on a bank.

The insurance company is contesting the payment on the grounds that the policy had not been definitely accepted. W. L. Pander, agent for the company, who had written the policy, claims that he had delivered it to Weinschenk conditionally.

He says that when Mr. Weinschenk secured the proceeds of another policy which was due, he would decide definitely whether or not he would keep the \$5,000 policy.

Plaintiffs claim that they know nothing of a conditional acceptance and ask the double indemnity of \$10,000 provided for in the policy in case of death by accident.

Make Reports Of Minor Traffic Accidents In City

Quite a number of accidents have been reported to the police in the past twenty-four hours. Fortunately they were accidents in which there were no persons injured.

Jack Ruth of 541 Sampson street, reported Tuesday that he was driving a truck of the Kegarise company east on Long avenue and about to turn north of Mill street, when he drove the truck into the switch box at Long avenue and Mill street, breaking the controls of the traffic lights at Mill street and Long avenue.

C. E. Conner of 1717 Pennsylvania avenue, reported Tuesday that he was enroute east on Long avenue, a short distance from Mill street, when a car, the license number of which he did not get, and going in the same direction, hit and damaged his machine.

Lewis DeRobbio of 1110 South Jefferson street, reported that he was enroute south on the South Mill street bridge, as a car bearing Pennsylvania license 96-516 was parked on the bridge. His machine skidded into this car, causing damage to both machines.

Don C. Burns of 418 Elizabeth street, reported that he was going north on Walnut street at Court street, when his machine was in a collision with that of John J. Turner, 1930 Court street, which was going west on Court street. Both machines were damaged.

P. C. Mancino of Phillips and Mercer streets, reported that he was enroute north on North Jefferson street at Grant street, when his machine was in a collision with a machine bearing Pennsylvania license 84-872, which was going in the same direction. Both machines were injured.

K. P. Tumble of 135 Moody avenue, reported that he was enroute west on North street and had passed a car bearing Pennsylvania license D 22-300, which was also enroute west. He stopped for the red light at Mill street and the other machine ran into and damaged his car. The other car did not stop.

Earl Kanengeiser of Youngstown, O., reported that he was enroute west on Croton avenue at Crawford avenue as the machine of L. Cramblett enroute east on Croton avenue stopped in the middle of the street. There were machines parked on each side of the street and he was forced to hit the Cramblett car. Some damage was done.

E. L. Dicks of New Castle R. D. No. 3, reported that he was enroute south on Smithfield street and making a left hand turn into Carson street, when a car bearing Pennsylvania license 568-742 going in the same direction and following his car, failed to observe his signal of making the turn and ran into and damaged his machine.

H. P. Meehan of 120 North Crawford avenue, reported that he was driving a car of the Pennsylvania Power company west on Sycamore Way at Cochran Way, when a United States mail truck operated by C. M. Gillespie of 1709 East Washington street was enroute south on Cochran Way. Two machines, bearing Pennsylvania license 945-908 and 874-180 were parked on the west side of Cochran Way, causing the mail truck to be on the wrong side of the alley and the truck hit and damaged his machine.

Pantages Takes Witness Stand In His Own Defense

Coast Theatrical Magnate Shows Court and Jury How Attack Really Took Place

(International News Service) COURTROOM, LOS ANGELES, Cal., Oct. 23.—Alexander Pantages, miracle man of the show business, told his own story in court Tuesday for the first time.

It was a dramatic story, completely denying the charges that he had criminally attacked Eunice Pringle, 17-year-old stage struck dancer.

A tense and crowded court room hung on his every word as Pantages gesticulated with his hands, with his arms and with shrugs of his shoulders sought to show just what he said happened in the little room on the mezzanine floor of his theatre office building where the girl claimed he wronged her.

In broken English, the theatrical magnate declared he had been lured into the room by the dancer.

"She told me she wanted to see me on important business privately, and did not want to be interrupted," he declared.

When they got inside the room, he said, the girl tore his clothes while he struggled to get to the door.

Graphically he got down from the witness chair and described how he tried to push her out the doorway while she clung to the moulding.

Fat Folks Eat Less Than the Thin

A Gland Is Weak

VERY often we find that fat people eat less than thin people. They are naturally careful in their diet. So it is evident, generally, that something else causes excess fat. There is usually an under-active gland. Modern physicians, in treating obesity, seek to supply the deficiency.

The factor they use is embodied in Marmola prescription tablets. A book in each box of Marmola gives the formula and states why it leads to reduction.

Marmola is prepared in a famous medical laboratory, to deal in the right way with excess fat. People have used it for 22 years—millions of boxes of it. They have told the results to others, until people now employ it in a larger way than ever.

Do what those people have done. Don't starve, don't over-exercise. There is danger in both. Let Marmola supply the gland factor which is probably too scant. Watch the results for a little while, in lower weight, new health and vitality. Those results will tell you if this is the right way for you.

Do this for your own sake, for your family and friends. If your condition is abnormal, correct it. Go try Marmola now.

Marmola prescription tablets are sold by all druggists at \$1 a box. Any druggist who is out will gladly order for you.

Banker Leaves To Start Term In Pen

Former Slippery Rock Cashier Begins 18-Month Sentence At Atlanta

Herbert R. Smith, aged 56, former cashier of the Citizens National Bank of Slippery Rock, left yesterday, in the custody of United States marshals for Atlanta, Ga., where he will begin serving an 18-month term in the Federal penitentiary.

Smith pleaded guilty on September 28, to embezzling \$35,000 of the funds of the Slippery Rock bank and was sentenced to serve the above mentioned term in Federal court.

There were 14 other Federal prisoners in the party which left Pittsburgh for Atlanta yesterday, in custody of United States Marshal J. C. McGregor, Deputy Marshall D. A. Goldman, and guards.

Illinois Gangster Is Taken Back To Face Murder Charge

(International News Service) GULFPORT, Miss., Oct. 23.—Taking no chances with the alleged desperado of the notorious Birger gang, Illinois officers Tuesday afternoon placed the man they claim is Connie Ritter into an armored automobile and started him on his trip to Franklin county, Ill., to face three charges of murder.

Ritter was turned over to the officers, who carried papers from Governor Bilbo granting the prisoner's extradition, after habeas corpus proceedings instituted by his counsel were dismissed.

The accused claims he is "Fred Randall," by which name he has been known in this section, and hoped to prove his identity as Randall at the court proceedings. He was arrested last week.

IT'S HAPPENING EVERYWHERE

BUSY STREET

Crowded traffic—cars, cars, all straining for an opening—stopping and starting, bunching up at every signal light, losing time—along comes a new Multi-Range Chrysler—the driver flicks into acceleration gear, steps on the gas and is out in front like a puff of wind—no effort—no grinding of gears—what marvelous acceleration!

OPEN ROAD

A new Multi-Range Chrysler—the smoothest thing you can imagine on four wheels—so smooth that it actually seems to be coasting. The Synchronized Power System, giving higher car speeds at lower engine speeds, accounts for Chrysler's unapproached performance on the open road.

STEEP HILL

A long, severe climb—some cars laboriously trying to "pull" it in high—some lugging and grinding slowly up the incline in "second"—But look! around everything on the hill steps a new Multi-Range Chrysler—flashing up and over the top with incredible ease—quietly all the way—in its marvelous new acceleration range—leaving all other cars behind.

MATCHLESS UNDER ALL DRIVING CONDITIONS

There is no matching the supremacy of these new Multi-Range Chryslers under any and all driving conditions. They have turned performance standards topsy-turvy. They introduce not only the most revolutionary

developments in Chrysler engineering, but the most sensational advances the automobile industry has ever known.

What these new Multi-Range Chryslers achieve in power, in acceleration, in smoothness and

riding ease, is actually beyond the power of words to describe.

You must drive one—you must FEEL this performance to realize

how completely Chrysler has transformed the standards of motoring. Come have that drive.

Chrysler Imperial, "77," "70" and "66" offered in all popular body styles—Prices range from \$985 to \$3475 f.o.b. factory (Special equipment extra).

FOR the motorist who is on the alert to balance his dollars against real value, an Exide automobile battery offers an opportunity to get his money's worth.

Exide Batteries are made by the world's largest manufacturers of storage batteries for every purpose. Early types of electric horseless carriages of 30 odd years ago were propelled by Exides. Later in 1911, the first car to be equipped with an electric "self" starter used an Exide. Since then Exides have given millions of motorists the world over, economical and dependable battery service.

Start weighing battery values now. Let us install a new Exide Battery in your car . . . or, let us show you how regular battery inspection, about once every ten days, will help you to get more life out of your present battery, regardless of its make.

Parnassus Lumber Mill Fire Placed At \$225,000 Loss

Five Homes Near Mill Damaged
By Flames; Twenty-Four
Firemen Are Injured

(International News Service)
NEW KENSINGTON, Pa., Oct. 23.—Fire which started early this morning in the Logan Lumber company yard, Parnassus, spread to a row of houses across the street, damaged five of them, injured 24 firemen and caused property damage estimated at \$225,000 before it was checked by the combined efforts of nine fire companies.

Charles Artman and Michael Dronas, Parnassus firemen were overcome by smoke and 22 other firemen were slightly burned.

More than 20 residents of the houses, caught when high winds swept the flames from the lumber stack across the street, were forced to flee their homes to escape the flames.

Henry Bunneman, night watchman at the lumber yard had made the rounds just 10 minutes before the blaze was discovered he said, and his first knowledge of the fire came when fire trucks dashed to the mill.

RUPTURE

EXPERT AND AUTHORITY
HERE WITH THE
FAMOUS HUSTON TRUSS
Dr. Huston, of the Huston Truss Co., New York City, will personally be at The Castleton hotel, New Castle Friday and Saturday only, October 25th and 26th, from 9 a. m. to 4 p. m. and offers to the people of this section the internationally known Huston Truss. This justly famous Truss is universally considered the one perfect and satisfactory instrument for the relief of all kinds of reducible rupture, producing remarkable results without the use of surgical operations or medical treatment of any kind. Instantaneous relief is apparent the moment it is placed in position—contraction of the opening is manifest in a few days and the rupture soon disappears permanently in the average case.

The pad on this Truss will hold any reducible rupture perfectly, and will not slip regardless of position or bodily strain of the subject.

YOU CAN SLEEP IN IT—
BATH IN IT
No under leg straps elastic webbing or bulky pads are used in its construction. Nothing to wear out, clean and sanitary. Moisture proof and will not chafe. Can be put on or off in five seconds. No other instrument has ever met these demands with such universal endorsement. Guaranteed not to break.

WARNING—You are cautioned against wearing elastic webbing, or the old style Leather Covered Truss, or under leg straps. Such Trusses press in the place, often causing strangulation. OVER THIRTY-FIVE YEARS SCIENTIFIC STUDY OF RUPTURE WARRANTS THIS STATEMENT.

This Truss is not sold by mail as each part is selected, assembled and fitted by Dr. Huston especially for each individual case. No guess work, but a scientific fitting of a scientific Truss.

WEAR A HUSTON TRUSS AND FORGET YOUR RUPTURE

ACHING KIDNEYSWhen Back Hurts Flush Your
Kidneys As You Clean
Your BowelsMost folks forget that the kidneys,
like the bowels, sometimes get slug-
gish and clogged and need a flushing
occasionally, else we have backache
and dull misery in the kidney region,
severe headache, rheumatic twinges,
torpid liver, acid stomach, sleepless-
ness and all sorts of bladder disorders.
You simply must keep your kidneys
active and clean and the moment you
feel an ache or pain in the kidney
region begin drinking lots of water.
Also get about four ounces of Jad
Salts from any good drug store here,
take a tablespoonful in a glass of wa-
ter before breakfast for a few days
and your kidneys will then act fine.
This famous salt is made from the
acid of grapes and lemon juice, com-
bined with lithia, and is intended to
flush clogged kidneys and help stimu-
late them to activity. It also helps
neutralize the acids in the urine so
they no longer irritate, thus helping
to relieve bladder disorders.Jad Salts is inexpensive; makes a
delightful effervescent lithia water
drink which everybody should take
now and then to help keep their kid-
neys clean.
A well-known local druggist says he
sells lots of Jad Salts to folks who
believe in trying to correct kidney
trouble while it is only trouble.Crown Prince Goes

Must File Claims For Compensation Before January 1

Any Lawrence county ex-service man who has failed to file his claim for compensation must do so before the first of the year, otherwise he will be out of luck.

It is thought that most all of the local ex-service men have availed themselves of this compensation grant but there may be a few yet who have not done so. If so they are urged to get in touch with Major Guy J. Wadlinger, liaison officer, who is handling such bases for the Legion.

Figures compiled on June 30, 1929, showed that there were approximately one million World War veterans who had failed to apply for the adjusted compensation certificates. On that date applications had been approved for 2,650,093 cases. A campaign on the part of the Legion resulted in extension of time set in the original act to that of January 1, 1930. The Legion has attempted through its members and the public to inform all veterans of benefits granted by the act.

The average adjusted compensation certificate is \$1,000. This certificate granted the veteran on a basis of the time he was in service and whether he was overseas, is similar in many respects to a 20-year paid up endowment insurance policy. It is payable on death to the beneficiary of the veteran or to the veteran himself if living at the time of maturity. The certificate has a loan value that increases with the years. Application blanks may be obtained from Legion posts or regional offices of the United States veterans bureau.

Veterans who have not made application are warned to act very promptly as it is considered that congress may not again extend the time of filing.

Further Action In Michaelson Case Is Likely To Commence

(International News Service) WASHINGTON, Oct. 23.—Further prosecution of M. Alfred Michaelson, of Chicago, Illinois dry Republican congressman, whose trunks were found leaking liquor on the docks of Jacksonville, Fla., last year, loomed probable Tuesday.

Attorney General Mitchell has sent to W. B. Hughes, recently appointed U. S. district attorney of Florida, a copy of the department's records of the Michaelson case for his examination and "possible further action."

Edison Recovers From Breakdown

(International News Service) DEARBORN, Mich., Oct. 23.—Thomas A. Edison today was recovering from the breakdown he suffered Monday night during a banquet given in his honor, and in observance of the 50th anniversary of the incandescent light.

The great inventor had regained sufficiently to attend luncheon Tuesday with his host, Henry Ford. The luncheon party included Mr. and Mrs. Edison, Charles A. Edison, the inventor's son; Mr. and Mrs. C. W. Sloan and Mr. and Mrs. Henry Ford. It was held at Clinton Inn, the early American Inn in Ford's village Greenfield.

Mt. Jackson Notes

G P A RADIATOR GLYCERINE

freed 950,000 motorists from ANTI-FREEZE worries last winter

950,000 Users—Leave your car anywhere in any weather. You can always count on G. P. A. Radiator Glycerine's protection.

It's SAFE because it won't evaporate

Nearly a million motorists protected their cars against freezing for the entire winter with one filling of G. P. A. Radiator Glycerine last year.

They never had to worry about evaporation. They didn't have to add more anti-freeze every few days to keep the solution up to strength. They had none of the worry, fuss, and bother that the average motorist pays as the price of winter safety for his car.

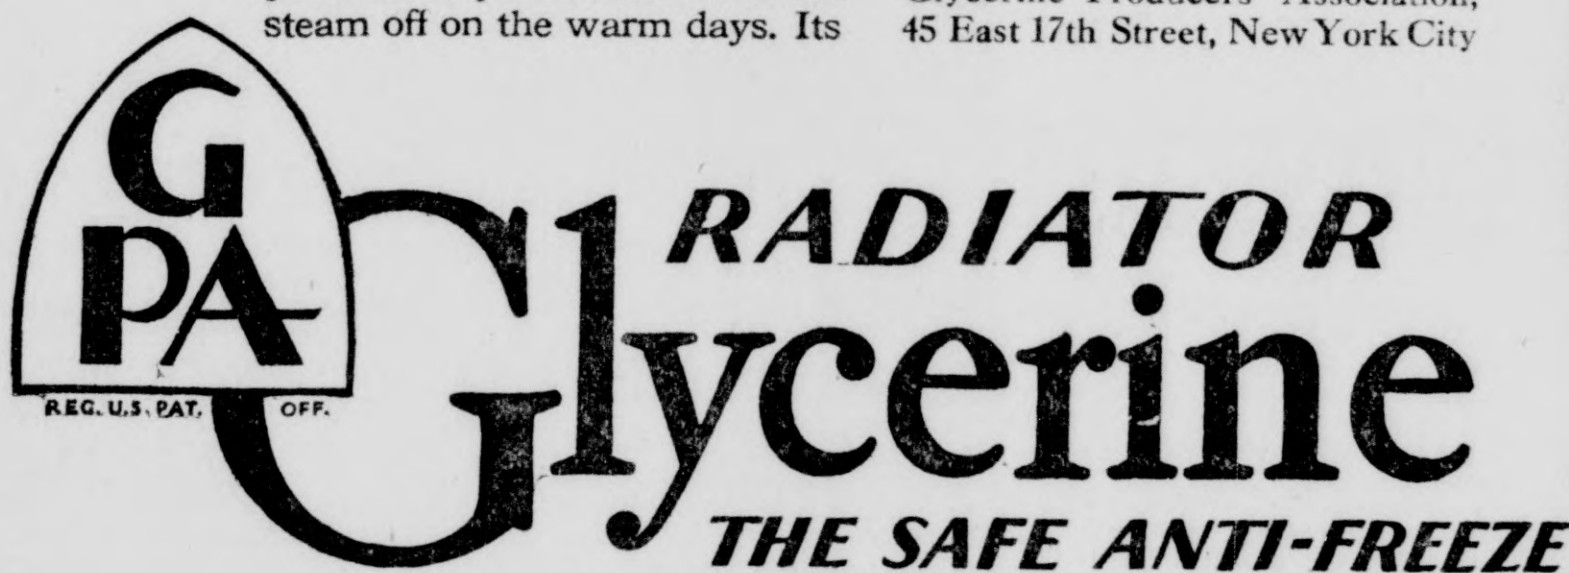

Glycerine does not evaporate. That's the secret of its positive permanent protection. It won't steam off on the warm days. Its

protection is always there when the cold snaps threaten.

It is safe, too. It won't harm the car finish. It won't attack the cooling system. It meets all of the U. S. Bureau of Standards requirements of a perfect anti-freeze. And it has no odor.

G. P. A. Radiator Glycerine is the only glycerine solution produced under the formula and specifications of the Glycerine Producers' Association. One filling lasts the entire winter. Get it today.

MORAVIA STOP

At the Christian and Missionary Alliance church at Moravia Stop, Mrs. Milton Scripture, wife of Rev. Milton Scripture of Hoover Heights Tabernacle, New Castle, gave two inspiring messages to the Moravia Congregation Sunday in the absence of the pastor, Rev. T. J. Keegan, who has been holding revival services at Beaver Falls. Week day services will be as follows: Wednesday evening Young People's Society 8:00 p. m., leader, Miss Evelyn Davis. Wednesday afternoon, Ladies Prayer Band at 2 p. m. at the home of Mrs. Everett Young. Friday, cottage prayer meeting at the home of John Bates at Spring Stop.
Rev. L. M. Bartlebaugh, wife and son John, left Monday morning for Andover, Ohio, where Rev. Bartlebaugh will be given treatment for rheumatism. Rev. Bartlebaugh has been absent for many months and has been almost helpless. Many doctors in different hospitals have assured him that he would not receive any relief until given this treatment. The generosity of friends has made it possible for him to go to Andover, but as he has no personal funds more help will be necessary if he is to be able to remain and be cured. If any one feels able and willing to contribute anything for this purpose Rev. Keegan will be glad to see that the offering reaches the proper place.
Miss Mary Jane and Miss Anne Harris who are aunts of Mrs. H. J. Miller spent Sunday with Mrs. Miller and returned to their home in Bellevue Sunday evening. They accompanied by a niece Miss Rebecca Davis. Wm. H. Price and Emlin Price of Pittsburgh and Mr. H. W. Jones and son Harry Jones of Coraopolis and Mr. J. W. Miller of North Sewickley were also guests at the Miller home.
Ben Wiley and Mr. and Mrs. Robert Lutz and children of Wiley Hill, Ellwood, visited Sunday at the home of Mr. and Mrs. Bert Wiley.
Mrs. H. J. Miller who has been very ill is resting comfortably at present.

see the LATEST vogue in approved floor coverings

From among America's leading rug specialists, a "Committee of Authority" has been selected to test, gauge and insure that these floor coverings are correct in detail. They have given their approval with the following comments:

"Arcadia" is an appropriate name for this happy design which may be used in dining room, living room or bedroom. It would be attractive used with yellow walls. The furniture could be either the natural wood finish or blue. If the latter choice is made two chairs, possibly those flanking a chest of drawers, should be painted the coral color of one of the flowers in the rug.

FUTURA GREEN-FLOORTOX

The freshness of the green and coral floor scheme and the vividness of the design make "Futura" an especially delightful choice for sunroom, kitchen, breakfast room or hallway. Of course, the furniture should be green and the upholstery and accessories pick up the coral and black notes.

MARBELITE BLUE-INLAID

The design and lovely cobalt blue of "Marbelite" would be stunning in a kitchen, sunroom or colorful living room. Imagine, for instance, a sunroom with delicate parchment colored walls, black wrought iron wall sconces, and possibly blue latticework against one wall. The furniture is unpainted red with cushions covered in a black green and rose flowered chintz. The windows have only soft henna draw curtains and a blue cornice.

MANOCROW COCOA (Floortex) RUG

A charming living room color ensemble of blue, cocoa, jade green and mulberry is suggested by "Mandehow." The pale cocoa tones are for walls, while the Chinese blue and mulberry are for the upholstery and the jade green in the lamp bases, pillows and accessories. Blue or mulberry over-drapes will aid in drawing the interest of the rug up into the room.

Start Membership Drive For Legion

Number Of Other Matters Come
Before Legion At Session
Tuesday

Officialing for the first time as commander of Perry S. Gaston Post No. 343, American Legion Dr. H. H. Rosenthal got the winter's work of the post under way Tuesday evening. The membership drive was started, the Poppy Day chairman was announced and a number of matters of business attended to.
Major Guy J. Wadlinger was appointed chairman of the 1930 membership campaign, with power to appoint his own committee. He will probably name his committee within the near future and the work of recruiting the ranks will be started immediately.
For some time an agitation has been present for an illuminated sign outside the Legion Home, designating what it is and a committee to investigate the possibilities of such a sign was appointed. Norman Nelson and Alfonso Robb being appointed.
The need of some efficient method of getting notices out to members was brought up and W. R. Allen, A. H. Robb and John Fullerton were appointed on a committee to attend to the purchase of an addressing machine.
Joseph O'Leary auditor for the post presented a report showing the post to be in splendid shape financially and to have accomplished a number of things in the past year.
The annual banquet for the national commander came up and it was suggested that before the post assumes the responsibility for such a banquet this year that the other posts in the 26th district be canvassed to see whether they would care to share the responsibility. A committee consisting of Ivor V. Davis, Gordon Kelin, Joseph O'Leary, Glen Berry and Harry M. Long was appointed to visit the other posts and ascertain their wishes in the matter.
Edward S. Grant a field worker for the American Red Cross was a guest at the post meeting and spoke for a few minutes on the coming Red Cross roll call. He asked for and was promised the co-operation of the post.
At the close of the meeting the social committee consisting of J. N. Speed and John Wilson provided a lunch. The lunch was "on them" being their courtesy to the post.

PENN. Girl Gains Weight Amazingly

NATURE controls all the functions of our digestive organs save one. We control that; and a lot of trouble it causes.

Children suffer when they don't observe regular bowel habits. Breath becomes fetid; tongue coated; eyes dull. A host of ailments; biliousness, feverishness, lack of appetite follow if we neglect this warning that a child's bowels need help.

In such cases, California Fig Syrup never fails to help by the prompt opening of clogged intestines. The first spoonful does that; and relieves the common symptoms of constipation. Successive doses help tone and strengthen weak stomach and bowels; improve appetite; encourage digestion and assimilation. In a few days, a child is well, happy and bright again.

The way children improve when California Fig Syrup is used is the best proof of its merit. Here's an example: Mrs. Lillie Frank, 5822 Ludlow St., Philadelphia, says: "Phyllis was bothered with constipation several years ago and I decided to give her California Fig Syrup. It made such a difference in her that I have used it since then for every little upset. It helps her digestion; regulates her bowels; keeps her strong and energetic. I am sure it is one thing that is helping her gain weight at such a wonderful rate now."

The pure vegetable product, endorsed by doctors for 50 years, always bears the word California.

HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

The Story Of The World War
147—The National Army In Training

EARLY IN SEPTEMBER, 1917, THE DETACHMENTS OF THE FIRST DRAFTED MEN ARRIVED AT THE BARELY-COMPLETED NATIONAL ARMY CAMP. THE OFFICERS WHO TOOK CHARGE OF THEM WERE LOUD IN PRAISE OF THE SPIRIT SHOWN BY THESE MEN, THEIR PROMPT OBEIDENCE TO COMMANDS AND THEIR WILLINGNESS TO LEARN THE WORK FOR WHICH THEY HAD BEEN CALLED.

THE MEN WERE MUSTERED INTO THE SERVICE AND ASSIGNED TO COMPANIES. DRILLS BEGAN AT ONCE. IN SOME CAMPS THERE WERE NOT ENOUGH UNIFORMS TO GO ROUND, AND FOR DAYS MANY OF THE NEW SOLDIERS DRILLED IN THE CIVILIAN CLOTHES THEY HAD WORN FROM HOME.

EACH DAY BEGAN WITH A STRENUOUS PERIOD OF "SETTING UP" EXERCISES TO BUILD STRONG, SUPPLE BODIES AND DEVELOP A TRIM PHYSIQUE AND SOLDIERLY BEARING. BOON DROOPING SHOULDERS HAD SQUARED AND BROADENED. HEADS WERE CARRIED ERECT, AND THE IRREGULAR GAIT OF THE CIVILIAN HAD GIVEN WAY TO THE SWINGING STRIDE OF THE SOLDIER.

UNIFORMS BROUGHT THE FINAL TRANSFORMATION. AN ORDERLY CROWD INSTANTLY TOOK ON THE APPEARANCE OF A REAL ARMY. EVERY MAN ACQUIRED A SPIRIT OF PRIDE AND DIGNITY ON DONNING THE UNIFORM THAT MARKED HIM AS A DEFENDER OF HIS COUNTRY.

Athletics Stole Late World's Series, Says Dykes In Speech

Jimmy Dykes Reveals That Athletics Just Watched Catcher And Knew Everything

Zack Taylor Will Feel Very Putout To Learn That He Lost The Series

By DAVIS J. WALSH
International News Service
NEW YORK, Oct. 23.—It's out at last. The Philadelphia Athletics didn't win the World Series of 1929. They stole it—and not from under the pillow slip, either. They stole it from the "pillow" of the rival catcher, Zack Taylor.

Jimmy Dykes, the third baseman, found himself among friends last night and told all about it at a dinner given in his honor in good, old Upper Darby, Pa., the home of his youth. According to James, they simply got a man on and he promptly intercepted the catcher's sign, which in turn was passed on to the batter, who thereupon batted or bunted one to distant parts, winning the ball game. Thus, the 1929 version of villainy on baseball's backstairs—a stolen series.

Simply Watched Catcher
This explains everything. The Athletics simply got a man on—by the way, who stole the signs for the man before he got on? Anyhow, they had no trouble with Taylor. He was all for open covenants, opened armies, or something. For instance, in the third game they got plenty of men on. The trouble was that they couldn't get them off again or, rather, in maybe Mr. Taylor was feeling a little secretive that day.

If he wasn't, surely James doesn't mean to say that the Athletics couldn't hit what they knew was coming. And in the fifth game, Bishop was on first base when Haas hit his home run. Does James mean to say that Bishop picked up the sign from first base?

If he did, Mr. Taylor was using no ordinary signs. He was using the general electric system.

Is Age Old Trick
At that, James interested me strangely when he asserted that they didn't watch for signs in the fourth game. Had Mr. Taylor's guileless behavior wearied them? Or were they carried away with a sense of self-sufficiency, causing them to decide to do it the hard way this time? I don't think James ought to confess without taking us into his complete confidence. He should have told us why, without bothering about signs, the Athletics did more hitting this game than in any other during the series.

Frankly, James tells us an interesting story but it is old stuff. Signs have been stolen since the days when ball players were long of hair and short of breath. Danny Murphy and Harry Davis used to steal them for the old Athletics and they won. Then Connie Mack sold the outfit, almost in toto. Davis and Murphy continued to pick up the signs until they got granulated eyelids and what happened? Roughly speaking, nothing. In fact, nothing can happen unless your hitter can hit the ball.

Maybe the Cubs picked up a few signs from Cochrane during the series. They probably were told by the base runner that Grove was going to throw a fast ball.

As for the hard feeling James talks about, this was manifestly concealed. The two clubs didn't fraternize. But neither did they appear to snarl. However, if they did, I don't mind professing to be delighted. Baseball has so little time nowadays for the man who can't snarl pleasantly.

Grid Camp Briefs

(International News Service)
PITTSBURGH, Oct. 23.—Prospects are bright for the Carnegie Tech squad being complete to a man and ready for action here Saturday when the much respected Notre Dame team puts in its appearance.

BEAVER FALLS, Pa., Oct. 23.—The annual Geneva-Grove City classic will be played here Saturday and its approach finds Coach Mack Flenniken working hard to get the Covenanters defense perfected for an aerial attack expected from the Crimson.

MEADVILLE, Pa., Oct. 23.—With the benefit of a rest last Saturday, Allegheny college hopes to make a better showing against Pitt in Erie this Saturday than they were able to pounce against the powerful scoring machine of Dartmouth two weeks ago.

WEST POINT, N. Y., Oct. 23.—Weather permitting, the Army football squad today will engage in its first real practice of the week in preparation for the game with Yale on Saturday.

A heavy rain confined yesterday's work to a light drill and a long blackboard talk by the coaches.

NEW HAVEN, Conn., Oct. 23.—Yale's regulars today planned to work against Army formations as executed by the scrubs.

The blue coaching staff is hopeful that every man on the squad will be in playing condition by Saturday. Dan Hickok, veteran left end, was in uniform yesterday for the first time since his injury last week.

ANNAPOLIS, Md., Oct. 23.—The Navy squad, if Coach Bill Ingram's words have any effect, will enter the Princeton game Saturday in a fighting frame of mind. Yesterday, rain preventing practice, Ingram gave his squad their longest talk of the season in which he stressed the importance of the game and the stern opposition to be expected.

CAMBRIDGE, Mass., Oct. 23.—Possibility of a shake-up in the Harvard line-up before the Dartmouth game was seen here today in the manner in which the ranking substitutes are being given an opportunity to display their wares in practice, for the first time since the first-string eleven was selected.

HANOVER, N. H., Oct. 23.—Dartmouth today will continue its work on new plays and the perfection of a defense against Harvard plays. In yesterday's practice the varsity was highly successful in smashing Crimson formations as used by the scrubs.

Midseason Coast Classic

SOUTHERN CALIFORNIA COACH—HIS SLASHING TROJANS FACE STANFORD—THIS GAME SHOULD DECIDE THE COAST GRID CROWN!

Cardinals and Trojans (Stanford and Southern California respectively) play their annual game Saturday which will determine in all probability the 1929 football championship of the Pacific coast. At this writing, it looms as one of the season's very best games.

"Pop" Warner has another great Stanford team such as stunned the east late last season by crushing an excellent West Point array. Howard Jones' Southern Californians pointed for Stanford ever since assembling for practice. The winner of this game will be a logical candidate for consideration as the best of the nation's football teams of 1929.

Never before has Jones been so optimistic over his Trojans as he has been this season. Around Capt. Nate Barrager at guard, the coach has built at least two sturdy lines, five of the linemen of the U. S. C. second team being on a par with the first string men. George Dye from Alabama, Clark, Galloway, Jesse Shaw and Bob Gowder could make the line on any big team. With Frank Tappan and Tony Stepanovich at the ends, and with plenty of good re-

California High To Put Strong Team On Field Here Friday

New Castle High Team Works Hard Every Afternoon At Franklin Field

Coach Aschmann Hopes To Upset Bridenbaugh Machine In Game Here Friday

By "BUGS" WALTHER

DOWN in the Monongahela Valley a High School football team practices diligently. Friday night, under the big flood lights California High will meet New Castle's young gridders. The game is carded for 8 o'clock.

Coach "Bill" Aschmann, former W. & J. star, and rated as one of the finest linemen to ever graduate at the President's school drives his team through stiff workouts. A victory over New Castle is desired by every team. California High will be in New Castle for the first time in the history of the school. They hope to make a good showing. The visiting team this week stands

as an unknown quantity, inasmuch as little is known of their method of attack. To date they have had a fine season, they have won three games.

Perfect Passing
Phil H. Bridenbaugh is giving the New Castle team a lot of attention this week. The offensive drive of the locals is still rather weak, and needs bolstering up. The aerial attack used by the red and black in their game with Vandergrift was near perfection. They completed five out of six passes, and two of them went for touchdowns. Not a half bad record in any man's league.

In order to combat the teams that remain on the New Castle High card, the locals will have to resort to that tricky forward pass.

Action Against Wilson Dropped

(International News Service)
CHICAGO, Ill., Oct. 23.—Edward Young's suit for \$20,000 damages against Hack Wilson, slugging star of Chicago's Cubs, today was out of court.

The action was dismissed yesterday in circuit court when neither Hack nor Young appeared. Wilson was charged in the suit with climbing into Young's box during a game and hitting him on the nose for alleged remarks concerning Wilson's ability as a ball player.

Lawless To Box Freeman At Erie

Bucky Lawless, Auburn, N. Y., and Tommy Freeman, Erie, welterweights, will meet in a 10-round bout Friday night at the Carney auditorium, Erie. It is a "natural" for Erie. Lawless won from Freeman at Cleveland recently. Recently Freeman stopped Sammy Bruce. The attendance record will probably be broken when they clash.

Firpo Willing To Box Johnny Burns

There is considerable agitation for a Henry Firpo-Johnny Burns bout here. For some time it was thought that Firpo would not care to take on Burns but Jimmy Dunn, manager of Firpo, said yesterday that he would let Firpo fight Burns whenever a date could be secured that would be satisfactory to both middleweights.

Murphy Certainly Shows Good Punch

Battling Terry's junior lightweight, Billy Murphy, has been displaying a kick in his right hand and has stopped all his foes. He may become a good card here. Frankie Lance, one of Frankie Ross' bantamweights, also has been winning consistently and the fans are beginning to interest themselves whenever he fights.

Home Town Folks To Honor George

(International News Service)
MONTCLAIR, N. J., Oct. 23.—George Earnshaw, big right-handed pitcher of the world champion Philadelphia Athletics, will be honored by his fellow members of the Commonwealth club at a testimonial dinner here tonight.

Last Nights Fights

(International News Service)
AT CLEVELAND—Johnny Risko, Cleveland, knocked out Jim Maloney, Boston heavyweight, in the third round (10).

AT CHICAGO—Haakon Hansen, Norway, defeated Jack McKenna, Cleveland (10).

Unable To Get Huat, Show Off

There will be no boxing show at Jolly bowl Monday night because plans for a Tobias-Huat ten-round bout fell through.

Tobias was signed and agreed to meet Ernie Peters or Huat the Frenchman who knocked out the Canadian, Beranger.

Peters and Huat will be used against foes in Madison Square garden in the elimination bouts.

Neither accepted the bout, fearful perhaps that it might not be well taken by the garden management.

Rather than put a card of lesser attraction in it was decided to leave the bowl dark for one night.

It is possible that Johnny Burns will appear in the main role of the next show and Romeo Pacelli in the semi-final.

Hansen Beats Jack McKenna

(International News Service)
CHICAGO, Oct. 23.—Haakon Hansen, Norwegian middleweight, today was the winner over Jack McKenna of Cleveland in their ten-round bout. McKenna took a merciless pounding, but was still fighting at the end of the bout. Hansen spilled McKenna twice under a furious, two-fisted barrage in the sixth round.

McKenna's willingness to mix it with the Norwegian made last night's bout lively from the start.

Doesn't Care To Box Rosy Rosales

It doesn't look as though a Rosy Rosales-Billy Jones light-heavyweight battle will go on at the bowl unless Jones' manager changes his mind. He believes the bout would draw more in Cleveland and he says it is the money he is after. Rosales is willing to fight any light-heavyweight and is willing to box anyone the fans name at the Jolly bowl.

Emmett Rocco May Meet Kayo Christner

Joe Cumo, who is recovering from a serious illness at his home here, is thinking of letting Emmett Rocco, the big boy of Ellwood City, battle K. O. Christner and it is probable that the show will be staged in Akron, if negotiations under way are successful. Rocco's hand is now healed. It was hurt in his second bout with Johnny Risko.

U. S. Carpentier Wants Bout Here

U. S. Carpentier, once a favorite here, wants to do a comeback but when offered a battle with Romeo Pacelli, at 128 pounds, refused to take a weight even with that of Romeo he will be given an assignment in the bowl. Romeo is willing to box Carpentier.

Try After Touchdown Still Sticks Despite Criticism —Bezdek Suggests Value For Downs To Take Its Place

ONE SOLUTION FOR THE SITUATION IS TO HAVE ONE TEAM SCORE FOUR MORE TOUCHDOWNS THAN THE OTHER.

BY GOLLY THERE'S AN IDEA!

MOST COACHES AGREE THERE SHOULD BE SOME OTHER WAY OF DECIDING CLOSE GAMES.

By HUGO BEZDEK
Penn State's Great Football Mentor, Written for New Castle News Through Central Press Association.

PENNSYLVANIA, Oct. 23.—Some two decades ago the try for point after touchdown was made at one corner of the field, the offensive team was allowed to make a short punt out from behind the goal line to a man who fair caught it for position in front of the goal.

While catching this ball he was defended by the other eight or nine players of his side while the defensive team charged forward from the goal line. From the spot where the ball was fair caught a regular place kick was allowed for the extra point, the defensive team charging forward trying to block the kick, from a restraining line ten yards from the ball.

It stands to reason that the details of this type of play took considerable amount of time and practice during the week. In case the punt was fumbled a try for point was disallowed. In other words, there were two chances of missing the try for point; one by fumbling the punt and the other by missing the place kick. Due to these complications the rules committee finally eliminated the punt and allowed the offensive team to bring the ball in front of the goal posts regardless of where it crossed the goal line.

"Bone of Contention."
The try for point after touchdown has caused considerable amount of discussion throughout the country. Many coaches feel that this play after touchdown should be abolished entirely. First they claim that the original drive for a score is to make a touchdown and not one point gained by a try thereafter.

It also takes considerable time, not only during the game itself, but also in practicing the play during the week. In order to perfect the play it takes the time of two full teams, an offensive and a defensive one. As the colleges are prone to cut down practice sessions it appears from that angle that the play might well be done away with.

The reasons of the rules committee for retaining this play in football have been twofold; first to encourage place and drop kicking for a score, and second, to avoid tie games. There is very little glory in winning by a 7 to 6 score if both teams are equally matched, and yet it is very disappointing to a team to lose when the burden of proof really is put on the three men involved—the passer, the holder and the kicker of the ball. On a wet day a place kick or a drop kick is a matter of luck. The ball is wet, the field is soggy, and it is practically impossible to complete a good kick.

Does It Work?
It is a debatable point among a great number of coaches whether the purpose intended is accomplished. As the play has been made in the last few years, eight men as a rule, and sometimes nine, are placed on the line of scrimmage to rush the kick, thereby also by defensive strength on the line, preventing a running play. In other words the defensive team knew that in most cases the play would be either a place kick or a drop kick and

Football Scouting Via Plane Feared By Illinois Team

(International News Service)
CHAMPAIGN, Ill., Oct. 23.—Members of the University of Illinois football squad are scanning the skies each afternoon, fearful not of rain, but of airplanes.

Second Lieut. Harry Wilson has suddenly and mysteriously been transferred to Chautauque, Rantoul, Ill., just a few miles north of here, it is reported. A change of this sort is reported to be unprecedented.

And Mr. Wilson, strangely enough, is the "Lighthorse" Harry, captain and star of the Army team in 1927. And more strangely than this, the Army plays Illinois here November 9. Rumor has it that "Lighthorse" Harry might scout plays from his plane.

Shawkey Plans To Strengthen Yanks

(International News Service)
NEW YORK, Oct. 23.—His private conference with Colonel Jacob Ruppert completed, Robert J. Shawkey, newly-appointed manager of the New York Yankees, was to sign his contract today and officially take up the duties laid down a month ago by the late Miller Huggins.

In a brief interview Shawkey said that the crying need of the Yanks was more strength on the left side of the infield and one, maybe two, new and capable hurlers.

Whether or not the infield problem would be solved by trades or simply a juggling of the talent on hand the new manager would not say.

Mike Payan Wants Clash With Belmont

Mike Payan, who startled fans around here and who fell and was hurt when he boxed Jimmy Belmont at Junction park, is anxious to get another crack at Belmont. It is probable that this bout will be lined up for the bowl if Mr. James Mason will accept the bout. Payan is a good boy and Belmont is a favorite in this section.

Red Cross Board Plans Roll Call

National Organization Representative Speaks At Meeting Last Night

Members of the Board of Directors of the Red Cross held their monthly meeting in the Chapter rooms in the Temple Building last evening, when plans for the coming Roll Call in the rural districts of the county were discussed and approved.

Edward S. Grant, a field representative of the National organization was present at the meeting and stressed the importance of renewing the efforts of the various Red Cross Chapters throughout the country toward increasing the membership at this time.

He stated that the National organization faces a crisis during the coming year. Delegated by Congress as the one agency in the United States to render assistance in time of disaster, the floods and hurricanes of the past few years have been a tremendous strain on the treasury of the organization, and the surplus which is kept in the treasury to assure instant relief at the first moment of need has been sadly depleted.

In addition, there has been a growing demand for relief among the disabled ex-service men of the country, as disabilities incurred in the service are now beginning to show their effects in increasing numbers and the work of the organization has been considerably increased along these lines during the past few years.

R. R. McGeorge, who is chairman of the 13th annual roll call, together with Mr. Grant, Attorney Clarence A. Patterson, who is chairman of last year's Roll Call, and Secretary Charles E. Allen, have completed their preliminary plans for this year's Roll Call organization, and active work will be started in organizing the

various rural districts this week. Their plans were approved by the Board at the meeting last evening.

PERSHING IS GIVEN MASONIC HONORS

Supreme Council Of Scottish Rite Awards Thirty-Third Degree To 216 Members

WASHINGTON, Oct. 23.—The supreme council of Scottish Rite Masons of the southern jurisdiction has elected that 216 members should receive the thirty-third degree and 473 the rank of knight commander of the court of honor. Conferring "unusual distinction," the council named John J. Pershing former commander of the American expeditionary forces; Amos A. Pries former chief of the chemical warfare service, and Senator Capper of Kansas to receive the thirty-third degree simultaneously with the rank of knight commander.

SORDS POINTS

Mr. Grove Proves His Worth

By JACK SORDS
Central Press Sports Cartoonist-Writer

A New York baseball "expert" wrote: "If Grove doesn't start a world series game they will have to stop him with the great lefthanders of all time."

Well, Grove didn't start a game in the late series between the triumphant A's and the impotent Cubs. But he proved to be a pitching star just the same and gave one of the finest exhibitions of mound mastery displayed during the five-game fight.

Which proves that even a New York "expert" can be wrong.

Unable to start a game because of a sore finger, the angular Robert

Moses (Lefty) Grove nevertheless proved his might against the Cubs. Shoved into the breach at various times, Grove checked McCarthy's Marauders, bringing confusion into the ranks of one of the greatest offensive baseball machines of the day.

And every ball he pitched in that series brought a stab of pain through his hand!

Disregarding the apparent desire of the fans to see the mighty Grove start a game, Connie Mack wisely sent his other moundmen to the firing line, holding Grove as a threat—a threat that reached fulfillment on several occasions.

Conventions Draw Many To Chicago

(International News Service)

CHICAGO, Oct. 23.—More than 250,000 persons will attend 53 business and fraternal conventions in the city of Chicago during the month of October, according to figures released recently.

Including such widely diversified interests as butter and egg men, railway engineer, journalists, Greek letter enthusiasts, safety experts, Hetter rabbis and Y. M. C. A. secretaries, chiropodists and surgeons, the month's influx of out-of-town visitors will mark one of the busiest periods in Chicago's long history as a meeting place.

Outstanding among the larger events scheduled for the month is the Eighth Annual Chicago Radio Show, to be held at the Coliseum from Oct. 21 to 27. Past records

NEW YORK STOCKS

Some Gains Reported In Early Market Sales

(International News Service) NEW YORK, Oct. 23.—New gains of a point or two were scored for the active industrial and railroad stocks at the beginning of trading today but the market was unsettled near the end of the first hour by a break in Bethlehem Steel, which sold down to 104 1/4 for a new loss of 3 points and a decline of 9 points since the last hour on Tuesday.

Rights to purchase the new Bethlehem shares at \$10 expired on Monday, and while the entire 800,000 shares offered were reported sold, it was stated in Wall Street that a good many shares were still overhanging the market, with the expiration of the "rights" on Monday and the withdrawal of "support" for the stock, Bethlehem has been offered in large volume on the local market.

New Haven's 2 1/2 point jump to 130 was the feature of the rails. The stock was in demand on official announcement of net earnings of \$7.24 a share in the first nine months of 1929, against \$3.94 a share in the same period last year. New York Central,

Chest Workers Are Busy Today On Pre-Campaign

Members Of Various Affiliated Agencies Are Securing Advanced Gifts

WILL END EFFORT
AT NOON THURSDAY

Community Chest Workers, representatives of the eight organizations affiliated with the local Chest, are busy today making a pre-campaign for advanced gifts among citizens of the city, who are expected to contribute between \$25 and \$50.

The campaign got under way Tuesday at noon, when a luncheon was held at the Y. M. C. A., each worker presenting paying for his own luncheon. All organizations were represented by full teams and more than the usual enthusiasm and campaign pep was displayed.

A brief snappy talk was given by George E. Lyon, in which he stressed the necessity for the cooperation of all workers in putting across the campaign.

He stated that the heads of the various agencies affiliated have a duty to perform in seeing that their organization did its full share of the work. "It is nothing to raise \$60,000 in a city of approximately 58,000 people, Mr. Lyon stated.

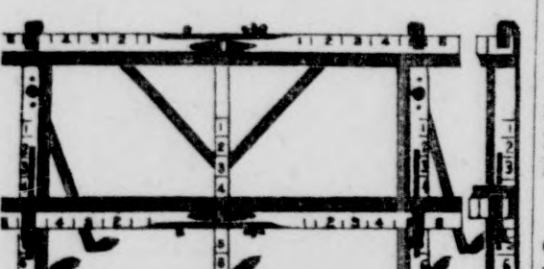

Mrs. Grace Phillips Johnson, president of the Community Chest, presided, and in speaking of the campaign, said that no worker should go out and attempt to solicit gifts before he himself had subscribed. President Moody of the Chamber of Commerce was thanked for the assistance which is being rendered by the Chamber in the present campaign. The Chamber of Commerce is loaning Secretary James W. Cole to the Community Chest for the drive, and is also furnishing all stenographic assistance, thus eliminating a previous campaign expense in other drives of approximately \$5,000.

The interest which is being displayed by workers today, indicates that considerably more will be added to the \$40,064.50 reported at the meeting yesterday, when the reports are submitted Thursday at noon.

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

There are a number of very elegant ways and places in which to commit suicide if you are interested. Inspecting the gas tank while smoking a cigarette used to be considered fair enough but this method isn't as much in favor as it was. Trying to beat a train across a grade crossing is another way that has certain spectacular features to it. For real thrills, and almost certain success if you are thinking of helping the florists along, try driving on the Mill street bridge on a wet afternoon.

One like yesterday afternoon fits the picture admirably. Plenty of wet on those wooden blocks and then stand by for accidents. If you were near the bridge Tuesday afternoon you saw two dandies, one in which a wheel was torn off and another in which a car was given a permanent wave. Both accidents were caused by skidding on those wooden blocks, and to these two accidents add a dozen near accidents in which only skillful driving and a handful of luck brought the drivers through without harm.

Driving from South street onto the bridge in the 5 o'clock rush is an experience. Several street cars lined up, at least one of them back on the bridge, drivers trying to edge past, leaving the fellow coming onto the bridge scant inches to make his turn. As the wheels hit the wet blocks the car starts doing the Varsity Drag and he finally manages to squeeze through in a cold sweat and a cold rage.

With all the brick plants and cement companies we have in Lawrence county it does seem as though we wouldn't have to chop down a lot of trees to get blocks for paving purposes. And it might save a lot of motorists repair bills, if that is important.

This is the night the Veterans of Foreign Wars have their inning and the rumor is that they are going to have one large time. The party will be held in the Carnegie auditorium and according to Jimmy Bell, there won't be room for an idle rumor when the gang gets assembled.

After the hard rain of Tuesday afternoon one of The News staff had an idea (entirely original). His idea was to provide a boat service for passengers who had to get from one side of the street to the other. The current was fast and the water was deep and a boat service for an hour or so would have solved the problem for a lot of ladies who were marooned.

Wherever there were cars parked, there was trouble. Up at the Franklin junior high school there was a pretty sight for a while. With one exception all the cars had water in their spark plugs, or water on the knee or something and a wholesale job of towing was in order.

To taste just so, a fruit salad has to be built, not made. It requires courage and skill and patience, wisdom and knowledge and science, and the Legionnaires who attended last night's meeting found that Nick Speed and Jack Wilson had them all. The boys are on the social committee of the Legion, fact is they are the social committee and last night a lunch was on the boards. Because fruit salad was not in an army cook's book, Nick and Jack shook some together last night and it was one of those things known in the early Arabic as a wow.

Just as too much buckwheat brings on the hives, too much autumn weather brings on an attack of dramatics, and the high school Thespians are in the early stages of a virulent attack. On November 8 the attack will come to full bloom when "Tommy" will be presented. Sounds like a dramatization of one of Rudyard Kipling's poems, but probably isn't.

These are great days for suggestions. In the past five days I have heard enough suggestions for public improvements that would take all the taxes the city and county would raise in the next ten years. All of them good ideas, but coming in a flock the cost would be staggering.

Men Return To County Home As Weather Changes

Rovers Seek Warmth Of County Institution; Away During Summer

Last winter's occupants of the Lawrence county home on the New Castle-Ellwood City road are returning for lodging again, County Poor Director M. B. Hogue reports. Mr. Hogue says the approach of another winter causes numerous stragglers whom they care for during the cold spells to hurry back for another stay at the institution.

Nearly 15 men leave the home early in the spring to seek a living elsewhere. Farmers and contractors employ the men during the warm months but dismiss their services in the fall. There were 85 inmates at the county home last winter. It is believed the number will remain about the same this year.

Beaver Presbytery Launches Campaign

Committees Appointed To Collect Fund For Ministerial Relief

More than forty laymen representing congregations of Beaver Valley Presbytery of the United Presbyterian church launched a campaign last night for funds in the national drive of the United Presbyterian church of North America for a fund of \$1,500,000 with which to create a pension fund for aged ministers and missionaries of the church.

Carl Baldwin, chairman in charge of the campaign in Beaver Valley Presbytery had charge of the meeting and perfected the organization. R. E. English of Grove City, zone chairman, presented campaign details. Immediately following the dinner the workers selected their prospect cards and started forth in quest of subscriptions.

The following laymen were chosen as committee members to conduct the campaign in their congregations: Oak Grove, F. S. Fisher, Thomas Fisher;

Wurtemburg, James H. Newton, W. L. Timblin; Third church, New Castle, J. A. Cox, Dr. S. M. Eagleson, David Palmer; Mt. Jackson, Harry B. Chambers; First church, New Castle, John P. Lockhart; Camp Run, Herman Pfing; Ellwood, Blaine Hancher; Mahoning, F. A. Montgomers; Second church, New Castle, Wylie McCaslin, Dr. W. L. Campbell, M. E. Alexander, D. G. Duff, C. D. Parker, Earl Book; Highland, New Castle, W. J. Offutt, W. G. Eckles, Dr. C. E. Trainor, H. A. Wilkison and T. A. Gilkey.
